# inmac

Microcomputer User's Ideabook

How to organize your personal computer for supplies and accessories for award-winning performance. Apple, Atari, North Star, IBM, and more.

Win a FREE IBM Personal Computer!

- 45-day, risk-free trial period.
- Super-fast, 24-hour shipment.
- Easy phone or mail ordering.

Why more and more personal computer users *shop by mail* from Inmac.

In this business, there's only one way to acquire a good reputation... you earn it!

You need to offer quality products at a fair price. You need to provide fast, dependable service. And, you need to back it all up with a no-nonsense, money-back guarantee. *We do!*

Here's what you can expect from Inmac:

1. Product development and testing. This catalog isn't just a collection of supplies and accessories... it's a collection of answers to your needs. Each product was carefully selected or specifically developed to make your personal computer work better. Then, we test and re-test every item to make sure it performs as intended. Our standards are often tougher than you'll find anywhere else in the industry. If a product fails, it simply won't become part of our catalog.

2. Prompt, thorough attention from experts. If you have any questions about our products or you don't see what you need, call us. Our highly trained staff will gladly help you. That's the advantage of working with personal computer specialists. We take care of the needs of tens-of-thousands of customers like you every year. Chances are good we've already solved every supply and accessory problem you'll encounter.

3. Fastest, most reliable delivery in the industry. We ship 9 out of every 10 orders within 24 hours. That means you can expect 2-3 day delivery via low-cost surface freight. If you need an item even faster... call us. Overnight package service has proven in our experience to be the best delivery service available. Call us by noon to place your order and confirm your location in an overnight service area.

4. Ordering is quick and easy. Just pick up the phone or use the handy order form on page 45. We accept VISA, MasterCard and verbal company purchase orders.

5. Satisfaction guaranteed or your money back! Our products must live up to your expectations, not ours. That's why we offer a unique Double-Protection guarantee. See page 45 for details on this no-risk, no-nonsense warranty.

TRS-80 owners can now order supplies and accessories for your entire system by mail! Ribbons (p. 32), printwheels (p. 33), flexible disks with a lifetime guarantee (p. 27), and Handy paks of paper to fit your printer (p. 30).

Now you can find supplies for your Apple in one easy-to-use source. Like Inmac Plus floppies (p. 27), the only floppies guaranteed for life. Or a module designed expressly for holding 2 Apple disk drives (p. 9), Cables (p. 40) and protective dust covers (p. 18).

Win a FREE IBM Personal Computer, a Pai
two and a Shopping Spree at Inmac…or 18
fabulous Second Annual *Inmac Plus™ Swe*

That's right! Another Inmac Plus Sweepstakes! Only this time the prizes are bigger and better than ever!

Last year we celebrated the unveiling of our exciting, new Inmac Plus media—the industry's first and only flexible media good enough to guarantee for a lifetime—by sponsoring the Inmac Plus Sweepstakes.

The response to both the product and the sweepstakes was so tremendous that we've decided another Inmac Plus Sweepstakes was the order of the day! Just look at the prizes we have this time.

GRAND PRIZE: The IBM Personal Computer… a Week's Vacation for two in San Francisco and the famed Monterey Peninsula…and a $1,000 Inmac Shopping Spree!

Our Grand Prize—the easy-to-learn, easy-to-use IBM Personal Computer—will make our winner feel lucky indeed!

This unit offers big system benefits and advanced design, including a high performance microprocessor with 40 Kb of ROM and a capacity of up to 256 Kb RAM for user programs. It also includes an 83-key keyboard, an enhanced version of

The new IBM Personal Computer… just one of our many prizes.

microsoft BASIC 80 interpreter (in ROM), an attachment for a cassette recorder to load and save programs, and a speaker which can produce tones.

The Grand Prize winner of the IBM Personal Computer also receives a 25-line display unit with 80 characters per line, and two 5½" 160 KB diskette drives.

Plus a $1,000 shopping spree at Inmac's sales and distribution center in Sunnyvale, California where the Grand Prize winner can choose from the more than 2,000 computer supplies and accessories we have in stock.

After shopping, our Grand Prize winner and guest are off for a week's vacation at the Fairmont Hotel in San Francisco and the famed Pebble Beach Lodge on the Monterey Peninsula. While there, they'll enjoy the majestic coastline of Big Sur, the literary and historical interests of Monterey, and the restaurants and art galleries of Carmel.

SIX SECOND PRIZES: Six Weekend Vacations for two and Six $500 Inmac Shopping Sprees!

One Second Prize winner will be drawn from each of Inmac's six regions, a total of six Second Prize winners in all. These winners receive an all-expenses-paid three-day vacation for two and a $500 shopping spree at the nearest Inmac regional distribution center.

Our weekend retreats are:

Region One:	**San Francisco:** The Fairmont Hotel
Region Two:	**Dallas— Ft. Worth:** Americana Hotel
Region Three:	**Chicago:** Ritz-Carlton
Region Four:	**New York City:** The Helmsley Palace
Region Five:	**Boston:** Hotel Meridien
Region Six:	**Atlanta:** Peachtree Plaza

Our grand prize includes a week's vacation for two in San Fra

e two in San Francisco and the Monterey Peninsula.

A Special FREE Bonus for everyone who enters!

When we receive your Official Entry Form we'll acknowledge your participation in the Inmac Plus Sweepstakes by sending you a coupon good for a 10% discount on your next order of Inmac Plus flexible disks.
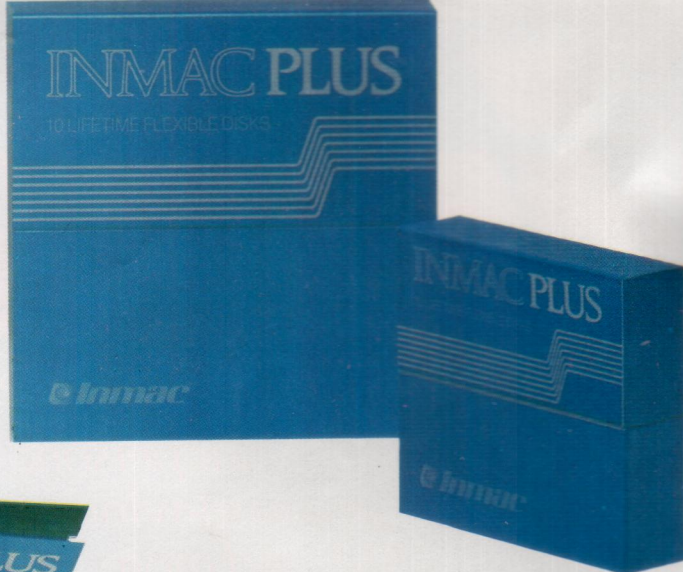

These disks set a new standard in the industry by incorporating design features that enable us to guarantee each disk for a lifetime.

These features include hub rings, a special lubricant to keep disk heads gliding smoothly, and one of the industry's highest read/write accuracy standards. If an Inmac Plus disk ever fails to perform for any reason, we'll replace it free.

Here's how to enter the Inmac Plus Sweepstakes:

1. Turn to pages **25-27** of this catalog and read about our Inmac Plus Disks.
2. Read the Inmac Plus Sweepstakes Official Rules.
3. Complete the Official Entry Form. All questions must be answered for the form to be considered a valid entry.
4. Mail your completed Official Entry form to Inmac Plus Sweepstakes, 2465 Augustine Drive, Santa Clara, CA 95051. No purchase is necessary, but your entry must arrive on or before Friday, April 9, 1982.

You could win a shopping spree to your nearest Inmac sales and distribution center.

Location photographs courtesy of Fairmont Hotel, San Francisco and Pebble Beach Company.

Your new IBM Personal Computer will run more smoothly when you keep your supply cupboards full (pp. 25-33).

Attention Atari owners! Use our catalog as the ideal source for accessorizing your Atari computer. Custom designed dust covers (p. 18), floppies with a lifetime guarantee (p. 27), in addition to a complete supply section (starting on p. 25).

Index

Transform your office into a professional, organized personal computer workstation.

DataMaster...a furniture system that's designed to accommodate the eccentricities of your computer equipment.

Computer equipment, by virtue of its unique function, has specific furniture needs. Inmac's DataMaster system is designed to accommodate these eccentricities with special features such as: knock-out wiring ports in the modesty panels on most modules to keep cables in place and out of sight; and sturdy 10" shelves to provide out-of-the-way storage for manuals, modems, and personal items. Roomy, 30" deep tops in your choice of widths assure an adequate work surface for monitors, reference materials, source documents and copy holders.

A professional workstation is a productive workstation.

One of the most important benefits of specialized computer furniture is the positive environment it creates.

Customers and business associates will view your operation as a successful one. And, you will probably gain a sense of self confidence and pride from your surroundings.

Contemporary oak-grain finish or traditional walnut-grain finish in furniture that looks expensive, but isn't!

All of these effects motivate positive thinking. That can lead to a higher level of job satisfaction and increased productivity.

A rare combination of function and good looks.

Our DataMaster system is proof that functional, well-built furniture can also be highly attractive.

Probably the most common problem encountered by the new owner of a personal computer system is how to harmoniously unite highly specialized machines with ordinary household and office furniture.

Sure, you can place your line printer on a coffee table or balance your monitor on a secretarial desk ...but, by doing so, your equipment will look out of place and will not perform up to its capability.

That's why we offer you such a unique selection of furniture designed specifically to handle the needs of personal computer equipment and the people who operate it. Your workstation will be professional in appearance, organized, comfortable and efficient.

The sleek, contemporary lines look sharp in any setting. You can choose from two popular color schemes:

"Traditional"...walnut-grained work surface and module doors accented by black trim.

"Contemporary"...oak-grained table tops and module doors accented by putty colored trim.

All tops are self-edged for that expensive look you'd expect to have to pay a good deal more to obtain.
Comfort adds up to efficiency.

Most computer activities require absolute concentration...and it's a lot easier to concentrate when you're comfortable. We've designed each piece of DataMaster furniture with this in mind.

Our sit-down modules measure 26½" from floor to work surface, the recognized standard for keyboard comfort and accuracy.

Additionally, we offer quick access stand-up modules, 38" high and desk modules, 29½" high for tasks like flow charting, coding and report writing.

All DataMaster modules are built with a unique cantilevered support principle which allows unrestricted freedom of movement plus generous floor space underneath.

Adjustable leveling glides on all corners compensate for uneven floors and minimize vibrations that can cause keying errors or even damage sensitive machines.

And, since the DataMaster system is modular in design, individual components can be switched from side to side so you can compensate for left or right handed orientation, existing light sources, or room configuration. (cont.)

Design your own workstation to handle the specific needs of your computer system.

How to custom design a Data-Master workstation for your personal computer.

Begin by determining how your equipment will be accessed.

For consoles that will be used by several people for short or intermittent periods, choose our easy-access 30" x 36" x 26½" sit-down module or our 30" x 36" x 38½" stand-up module. Order a set of casters to turn your module with a portable workstation.

If you're designing a workstation to be used for long periods by a single operator, first select the desired work surface height. Again, 26½" is ideal for keying-only applications. Where keying and writing tasks are split, we suggest you combine one of our 29" desk-high modules with a 26½" return module.

The various furniture combinations and configurations are limited only by your imagination. Just refer to the chart on P.5 to select your specific workstation components.

Complete your furniture system with a matching printer stand.

Nothing makes a business environment appear less professional than mismatched furniture. For this reason, we've included a matching printer station to provide workstation coordination.

The DataMaster printer station features two 3½" x 17¾" slots. One T-molded slot is in the work surface to feed paper to bottom-feed printers.

Another is in the modesty panel to allow you to deliver paper to a rear-feed printer without the aggravation of wrestling heavy boxes of forms to the back of the stand.

To complete your DataMaster system you'll probably want to order our custom fitted paper catch basket. It refolds and restacks your forms as they come out of the printer. Add a set of casters for printer mobility.

DataMaster... a furniture system that will grow with your needs.

Consider just how rapidly computer terminals, microsystems and word-processing equipment are becoming standard office fixtures. That's why it is so important to start right out with a modular system. As your needs expand, simply add the appropriate piece of compatible furniture. You essentially eliminate obsolescence... and that can save you a great deal of money in the long run.
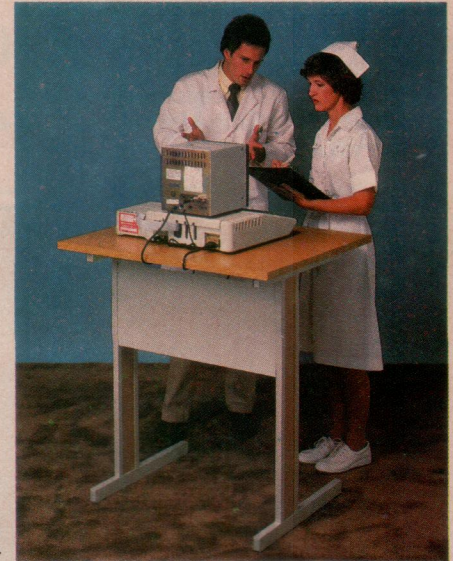

Quick access module... ideal for a shared terminal with intermittent work flow.

A truly modular furniture system that's designed to grow with your needs. Add pieces only as you need them and save!
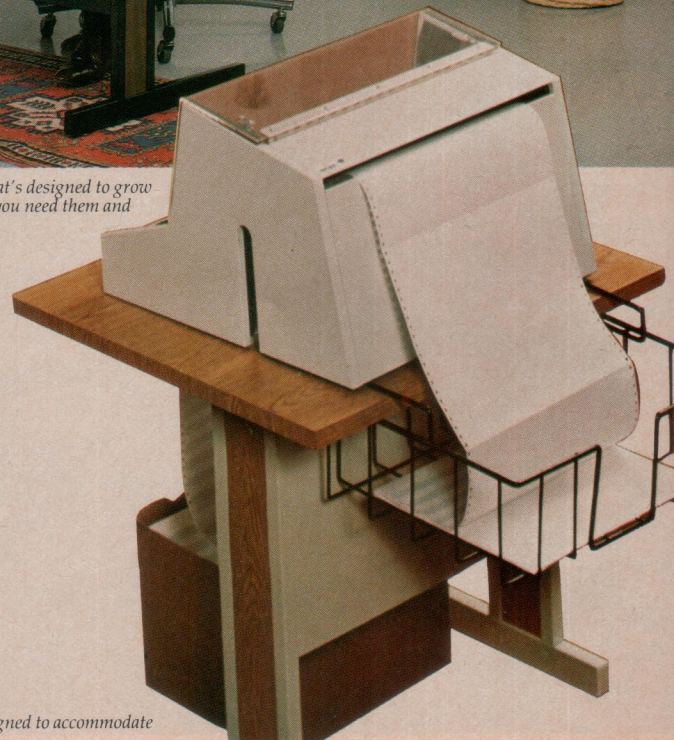

A matching printer stand that's designed to accommodate both rear and bottom feed printers.

Built to last a lifetime...

With furniture this flexible, you'll want it to last a long time. That's exactly why we've gone to such great lengths to ensure it is the finest in materials and construction.

The frames are fashioned from the same heavy gauge steel that's used in commercial furniture. All seams are carefully welded. All tops are a full inch thick and covered with special laminates chosen for their resistance to temperature and humidity changes.

This furniture is so well made that if anything should ever go wrong with it, we'll replace the defective item free. Simply return it to us for a prompt exchange.

Mix-and-match your DataMaster workstations for maximum savings.

When ordering from the chart below, look for the "yes" in the discount column. This means that if your order includes 3 or more of "yes" items (in any combination), you are eligible for an 8% discount from your total DataMaster furniture order. If ordering 12 or more, call Inmac for additional discounts.

Tilt Turntable ...a must for fast, accurate data entry. It tilts ±5° from horizontal to eliminate glare and swivels 360° to permit shared access.*

Don't let discomfort become a costly distraction.

If you spend much time in it, a good chair is every bit as important as a good pair of shoes. Discomfort can become a distraction from professional working habits which leads to job inefficiency. That will cost you time, and probably money! **Invest in day-long comfort.**

Treat yourself and your staff to proper seating. It's one of the most important furniture investments you can make. In addition to day-long comfort, these chairs are precision engineered to provide maximum mobility. All four chair styles swivel freely and adjust to optimum keying position. Sturdy casters glide effortlessly across the floor. And, most important, these chairs are built to withstand the rigors of day-in, day-out workstation punishment.

Leather-soft Deluxe chairs.

Tufted and plush, each of our Deluxe chairs is handcrafted. They feature the softest (and toughest) naugahyde upholstery. A full, 4" deep cushion provides luxurious comfort and a sleek, contemporary appearance.

Swivel Tilt Arm Chair. Brown. (Also available in black, tan, chimney and mocha at $325.00 each, with 8-wk. delivery.) 37 lbs. **(#4849-9LA) $275 ea.**

Posture Armless Chair. Brown. (Also available in black, tan, chimney and mocha at $205.00 each, with 8-week delivery.) 30 lbs. **(#4848-9LA) $175 ea.**

Precision engineered quality, luxurious comfort and sleek, contemporary styling. Chairs adjust to the optimum keying position.

The Efficiency chair ... a "great value" in workstation comfort and productivity.

An Unconditional Guarantee

An unconditional, 5-year guarantee protects the workmanship and materials of your entire High-Line chair. Its sturdy frame is covered unconditionally for 12 full years.

No-frills ... no nonsense Efficiency chairs.

Super-sturdy, comfortable and tastefully styled ... our Efficiency chairs represent a great value in workstation furniture. They feature a fabric seat and vinyl back.

Swivel Tilt Arm Chair. Color: **Brown.** **(#4842-9LA)** Qty. 1-2/**$150.**, 3-4/**$140.** (31 lbs.)

Posture Armless Chair. Color: **Brown.** **(#4841-9LA)**, Qty. 1-2/**$100.**, 3-4/**$93.** (26 lbs.) (Our Efficiency chairs are also available in black, blue, gold and persimmon for **$175.00 ea. (#4842   )** and **$125.00 ea. (#4841   )**, with 3 week delivery.)

Not included in our special freight offer.

Monitor stands... thoughtfully designed, incredibly strong & surprisingly inexpensive.

This is hard-working computer furniture. The hand-welded (not riveted or screwed) 1" x 2" tubular steel frame will support up to 400 lbs. That's 8 times the weight of a microcomputer. The unique U-shaped base allows even tall operators plenty of legroom, providing freedom to maneuver and sit comfortably. Exposed surfaces are smooth and rounded with T-molding to help prevent snagging one's clothing. Adjustable leg glides enable you to compensate for any unevenness in your flooring. The generous work surface is made of rugged laminated wood and covered with a handsome walnut-grain finish.

Sit-down or stand-up convenience.

Our sit-down models are 26½" from floor to work surface, which is the recognized standard for keyboard accuracy, keying speed and comfort.

Additionally, we offer a 39" stand-up model. It's designed for quick inquiry stations, production areas or high activity stations where several operators use a single console intermittently.

Optional storage shelf... ideal for modem.

This 31" wide x 9" deep shelf is a great place to store and protect your modem, with plenty of space left to accommodate manuals, papers and personal items.

Make your workstation portable with these optional rolling casters.

Transform your data entry station into a portable workhorse by adding a set of our durable casters. Nylon wheels encased in die-cast metal allow fingertip mobility that doesn't mar your floors.

Deluxe chrome CRT stand. Dim: 24" d. x 36" w. x 26" h. Wt. 43 lbs. (#4805LA) Qty. 1-2/**$145**, 3-5/**$135**, 6-9/**$125**.

Regular size CRT stand. Dim: 24" d. x 36" w. x 26" h. Wt. 43 lbs. (#4806LA) Qty. 1-2/**$127**, 3-5/**$115**, 6-9/**$109**.

Medium size CRT stand. Dim: 30" d. x 36" w. x 26" h. Wt. 53 lbs. (#4815LA) Qty. 1-2/**$143**, 3-5/**$130**, 6-9/**$123**.

Large size CRT stand. Dim: 30" d. x 42" w. x 26" h. Wt. 57 lbs. (#4825LA) Qty. 1-2/**$165**, 3-5/**$150**, 6-9/**$142**.

Available in two convenient heights for stand-up or sit-down access. A generous work surface and special modesty panel make these stands both functional and good looking. Built to support 8 times the weight (400 lbs.) of an average microcomputer.

Stand-up CRT stand. Dim: 30" d. x 36" w. x 38¾" h. Wt. 54 lbs. (#4830LA) Qty. 1-2/**$175**, 3-5/**$165**, 6-9/**$155**.
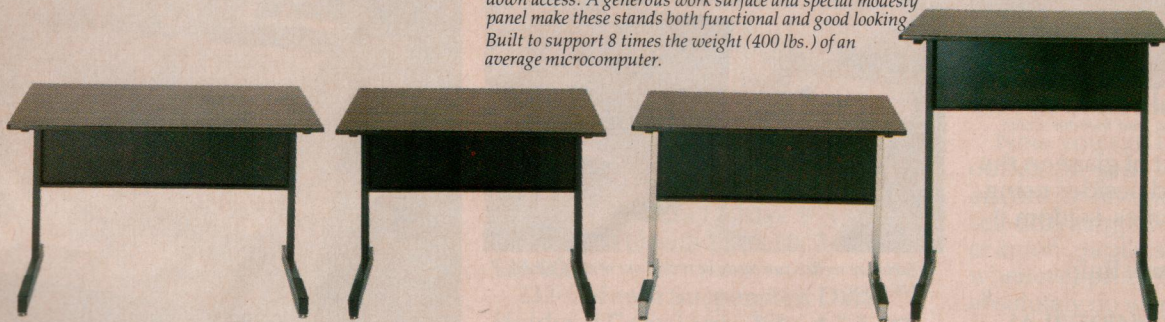

Order today and receive your CRT stand in 4 days.

We make sure our branches are constantly stocked with CRT stands and chairs. Even if your computer or WP facility is located at the farthest point from us, you should receive your CRT stand within just 4 working days.

Not included in our special freight offer.

Optional shelf. 31" w. x 15" h. x 9" d. For modem and data storage. In black (not for #4825). Wt. 17½ lbs. (#4833LA) Qty. 1-2/**$49**, 3-5/**$45**, 6-9/**$43**.

7
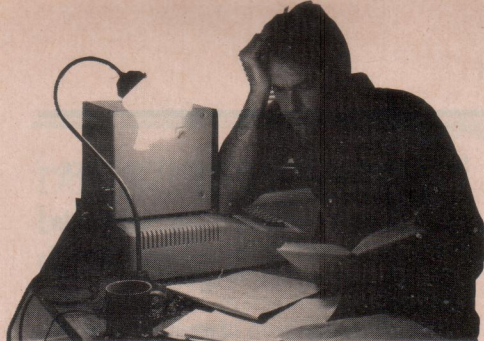

Organize your workstation with productivity aids and cut programming time.

Reduce eyestrain to cut down on mistakes!
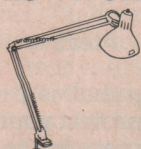

Operator efficiency requires a well lit work area...one which reduces the glare and eyestrain that can result in data-entry errors. **Choose from incandescent or fluorescent models.**

Both lamps have been rigorously tested in a variety of microcomputer environments. They feature long-reach 45" arms and padded "C" clamps that expand to 2¼" for securing to any stand or table.

The incandescent lamp emits a focused beam of soft, warm light. A special venting shield keeps the outer shade cool while permitting the use of up to 100 watt bulbs (instead of the usual 60 watt bulb maximum rating on most lamps of this kind).

The fluorescent lamp is designed for energy efficiency. Two 15 watt fluorescent tubes light an entire workstation...and you won't see
Energy efficient fluorescent suspension lamp. Lights an entire work area with no glare on your monitor screen.

even the slightest bit of glare on the monitor screen. And besides using less energy, these tubes seldom need replacing.

Incandescent Lamp. Bulb included.
(#4925-1LA) Black: (#4925-2LA) Sand. Qty. 1-2/**$69.95**, 3-4/**$63.00.**

Fluorescent Lamp. 2 Tubes included.
(#4926-1LA) Black: (#4926-2LA) Sand. Qty. 1-2/**$99.00**, 3-4/**$89.00.**
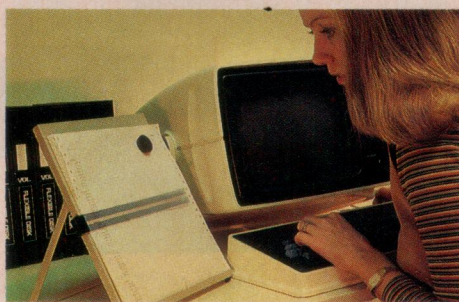

Table-top models can easily be tucked out of sight when not in use.

Data-holders put an end to backaches and eyestrain.

At most work stations space is at a premium. Data usually ends up wherever it can fit, forcing you to strain your eyes, neck, back or shoulders while transcribing. This
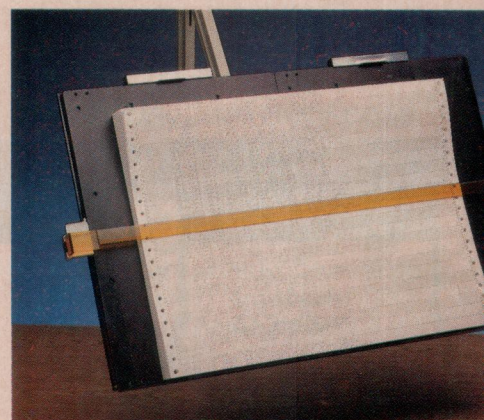

Yellow guides highlight each line.

strain can result in stress, which is the leading cause of keyboard error. **Long range extension arms place your data precisely where you want it.**

Our 80 and 132 column data-holders each feature an extension arm

If you're like most personal computer users, you've discovered that programming, debugging and data entry are much more tedious and time consuming than you thought they would be. We can help!

To maximize your efforts, both in terms of efficient time utilization and accuracy, you should consider outfitting your workstation with the productivity aids on the next 4 pages.

These items are market-tested and proven. They help ease eyestrain, reduce fatigue and relieve stress. More important, they assist you in maintaining a well-organized work area. And, that saves you valuable time and helps minimize errors.

The point is this... you've made a significant investment in your personal computer. Now, for just a fraction more you can make it perform like a well tuned machine.

Put an end to backaches, sore necks and strained eyes with the convenience of data-holders.

that's almost three feet long.

This lets you place your data at just the right height and angle for easy readability.

Using the tension control knob on our 132 column model, you can even hold heavy books (up to 3 lbs.) firmly in place.

Organize your Apple II for convenience, protection and a professional appearance.

Here's a brand new productivity aid for your Apple II personal computer.

Looks like a "factory component"!

Applestand...a great new way to create a neat, organized workstation.

Plastic line guides have been used on these data-holders to highlight each line of copy. They easily slide up or down with the touch of a finger.

On top of each data-holder is a handy copy clip to secure papers in place...leaving your hands free to concentrate on keying in your data.

Table-top Data Holder. 9" x 14". **(#4902LA)** Qty. 1-2/**$23.00**, 3-4/ **$21.00.**

132-Column Suspension Data Holder. 33" steel arm. 19 1/8" x 12". **(#4905LA)** Qty. 1-2/**$95.00**, 3-4/ **$86.00.**

80-Column Suspension Data Holder. 33" steel arm. 9 3/8" x 12". **(#4904LA)** Qty. 1-2/**$65.00**, 3-4/ **$59.00.**

Table-top Suspension Data Holder. 6" steel arm. 9 3/8" x 12". **(#4903LA)** Qty. 1-2/**$39.00**, 3-4/ **$35.00.**

It's called the Applestand and features three separate levels that house your computer module, disk drive and monitor. This allows easy removal of each component for cleaning, repair or modification. The Applestand organizes your Apple II hardware to create a neat, convenient, professional workstation. Paint matches the Apple II in both color and texture, so your Applestand looks like a "factory" component.

The Applestand is constructed of 1/8" steel. Four large ventilation holes in the sides assure maximum cooling for components.

Applestand. 16" w. x 9" h. x 9" d. Wt. 9 lbs. **(#2950LA)** Qty. 1/**$59.00**, 2-3/**$54.00.**

Extra power outlets with circuit breaker protection.

Now you can have six extra power outlets for your workstation without any tricky rewiring. And, it's safe! A self-activating, 15-amp circuit breaker automatically shuts the power off whenever problems occur. There's absolutely no worry about overloading or short circuits.

This hefty Multiple Outlet Extension has been U.L. listed and exceeds the National Electrical Code requirements.

Multiple Outlet Extension. Beige steel case. Max. rating: 15 amps, 125 volts AC, 60 Hz, 1875 watts continuous duty. 3 lbs. 13 1/8 x 1 5/8 x 2 3/8. **(#6680LA)** Qty. 1-2/**$34.95**, 3-5/ **$31.75.**

Tilt Turntable...a must for comfortable, accurate keying.

If your monitor screen is in a fixed position that's not quite right for you, you'll contort your body—neck, shoulders and eyes—trying to see the screen clearly.

We've seen people swaying and dipping like cobras, just trying to find a viewing angle that cuts glare. **Inmac's Tilt Turntable to the rescue!**

Some day, all monitors will have adjustable screens...until then we have a simple solution. The Inmac Tilt Turntable.

The solidly built oak or walnut-finished platform tilts ±5° from horizontal and swivels 360° on heavy-duty ball bearings that are permanently lubricated and sealed to withstand the most rugged treatment.

Because it adjusts in an instant, you can shift positions to combat fatigue, eliminate glare and improve accuracy.

Choose the model, size and finish that suits your needs and order today.

Tilt Turntable. Dim. 19½" x 24" x 1". Wt. 28 lbs. **(#3936-7LA)** Walnut. Qty. 1-2/**$99**, 3-5/**$91**. **(#3936-8LA)** Oak. Qty. 1-2/**$99**, 3-5/**$91**.

Turn 'n Key CRT Swivel. Dim. 16" x 16" x 1³⁄₁₆". Wt. 9 lbs. **(#4851-7LA)** Walnut. Qty. 1-2/**$55**, 3-5/**$50**. **(#4851-8LA)** Oak. Qty. 1-2/**$55**, 3-5/**$50**.

Turn 'n Key CRT Swivel. Dim. 20" x 20" x 1³⁄₁₆". Wt. 11. lbs. **(#4852-7LA)** Walnut. Qty. 1-2/**$62**, 3-5/**$57**. **(#4852-8LA)** Oak. Qty. 1-2/**$62**, 3-5/**$57**.
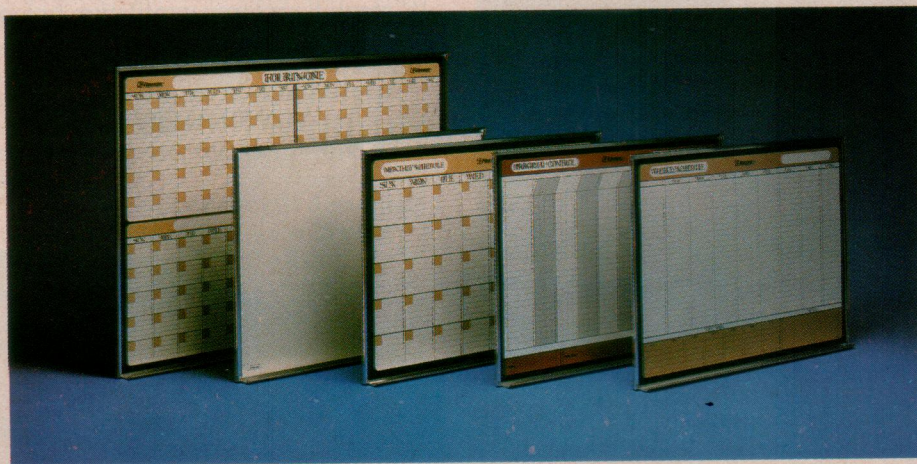

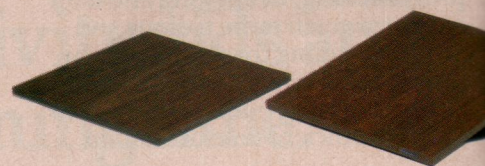

Priority scheduling can give you more productive minutes in each day.

You'll save time and money by scheduling accurately to increase productivity. Five styles to choose from...each includes four colored pens that wipe off for easy updates and changes. Laminated writing surface features bold, easy-to-read lines and grids. Adhesive backing provides quick, easy wall mounting. Aluminum frame features a handy pen tray.

Blank wallboard. White. 18" x 27." 4 pens. **(#6594LA)** Qty. 1-2/**$39.00**, 3-5/**$35.00**.

Four-In-One wallboard. 24" x 36." Four-month calendar reprint gives you one-third year activity at a glance. 4 pens. **(#6592LA)** Qty. 1-2/**$75.00**, 3-5/**$70.00**.

Program Control wallboard. 18" x 27." Has 25 lines down, 10 category-sections across. Rust with brown trim. 4 pens. **(#6593LA)** Qty. 1-2/**$55.00**, 3-5/**$51.00**.

Weekly Schedule wallboard. 18" x 27." Has 30 lines down, 9 sections across, days of the week and next week. 4 pens. **(#6591LA)** Qty. 1-2/**$55.00**, 3-5/**$51.00**.

Monthly Schedule wallboard. 18" x 27." With a full calendar reprint and notes for next month's planning. In beige/brown. With 4 pens. 5 lbs. **(#6590LA)** Qty. 1-2/**$55.00**, 3-5/**$51.00**.

Extra pens. Come 4 in a set of black, red, green and blue. **(#6595LA)** Qty. 1-2/**$5.95/set**, 3-5/**$5.50/set**.

Stackable 132 column printout trays.

Now there's a desktop tray that's designed to accommodate your 132 column printouts. These trays stack up as high as you need them. They make an ideal in/out system because they hold bulky reports flat.

132 Column printout trays. Dim: 12½" d. x 16" w. x 3¾" h. Wt. 1½ lbs. Rugged plastic. Specify smoke, black, beige or blue. **(#4542LA)** Qty. 1-3/**$8.50**, 4-9/**$7.75**, 10-19/**$7.25**.

10

Organize computer manuals at your fingertips.
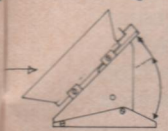

Our Easy-Load Manual Rack will hold up to six inches of standard 3-hole punched manuals, catalogs and other printed materials. Unlike most manual racks, this one uses an easy-load, ring binder system rather than posts. A patented locking device insures that materials will stay in place. And, for added security you can use the optional locking bar to prevent unauthorized removal of materials.

Pages turn easily...are fully visible.

This ring binder design makes it easier to turn pages and adjusts for either 30° or 45° reading angles. Strong wing supports let them lie open, flat and easy to read enabling you to see the entire page including the inside margin.

Easy-load system manual rack. Six 1" ring channel page holders. Stand and 2 side wings. Off-white. Wt. 10 lbs. **(#3705LA)** Qty. 1-2/**$59.00**, 3-5/ **$55.00.**

Expansion unit. Adds 6" to rack No. 3705 Six 1" ring channels and stand. Wt. 10 lbs. **(#3706LA)** Qty. 1-2/**$56.00**, 3-5/**$52.00.**

Extra ring channels. Set of two. Wt. 1 lb. **(#3707LA)** Qty. 1-2/**$9.00**, 3-5/ **$8.00.**

Optional locking bar. For use with Nos. 3705 & 3706 Inc. lock & 2 keys. **(#3708LA)** Qty. 1-2/**$18.00**, 3-5/ **$17.00.**

24-Hour Digital Programmer's Clock.
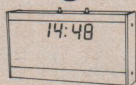

Computer time and pertinent data are keyed in on a 24-hour basis. With our Digital Programmer's Clock you'll always have the convenience of being able to look up and instantly know the 24-hour time. The large, bright green fluorescent display is extremely easy to read. In fact, it can be read at a distance of 50 feet.

Use this handsome clock as a desk model or wall-mounted unit. With its solid-state circuitry, there are no motors, rolling drums or annoying mechanical flippers. It runs silently and dependably. It's accurate to ±2 minutes per year.

24-Hour Digital Clock. 8¾" l. x 4¾" h. x 2¼" d. Brushed aluminum case, black face. 120 Vac. Wt. 3 lbs. **(#6585LA)** Qty. 1/**$99.**, 2-4/**$92.**

A monitor tray created for operator convenience.

We designed this tray to fit right on top of your monitor. That's the most convenient placement for both operator and pickup person.

Holds up to 132 column printout.

This tray measures 16" x 12" to handle documents ranging in size from standard invoice to 132 column printout, and it's 2½" deep. Rubber feet keep it securely in place. It can be used with all CRT's except Lear Siegler models.

Acrylic and flame polished edges make it an attractive addition to any monitor.

Acrylic monitor tray. 16" w. x 12" l. x 2½" d. Fits on top of all CRT's except Lear Siegler. Wt. 1½ lbs. **(#4855LA)** Qty. 1-2/**$16.95**, 3-5/ **$15.50**, 6-9/**$14.75.**

Tapered shape and special thumb notch allow easy access and easy messenger pickup.

Hudson, NH (603) 889-4900 ● Boston, MA (617) 536-9141 ● Norwood, NJ (201) 767-3601 ● Washington, D.C. (202) 362-8214 ● Atlanta, GA (404) 441-3041

11

Lost data can cost you hours of work. Here's how to store it, file it or transport it.

Bottom-feed printer stations & baskets.

To accommodate the growing market of bottom-feeding character printers, we've engineered our DataMaster printer stations to feed paper to bottom-feed printers. A slot in the modesty panel allows you to deliver paper to a rear-feed printer without the aggravation of wrestling heavy boxes of forms to the back of the stand. Our DataMaster stand features 1" thick top in choice of oak or walnut with a full 5 year guarantee. (p.5)

We also offer a utility version of printer station. The feed hole measures 6" x 17" to handle 132 column printout paper. The top measures 24" x 36".

DataMaster Printer Station. 24" w. x 30" d. x 26½" h. Wt. 52 lbs. (**#3908-7LA**) Walnut/black. **$165.00** (**#3908-8LA**) Oak/putty. **$165.00**

Universal Printer Station. Woodgrain vinyl with black frame. 36" w. x 26" h. x 24" d. Wt. 53 lbs. (**#4876LA**) **$140.00.**

Desk-top basket. Black vinyl-coated steel wire. Dim: 11" d. x 19" w. x 6" h. Wt: 5 lbs. (**#4877LA**) Qty. 1-2/**$40.00**, 3 + /**$36.00.**

Casters. Set of 4 (2 locking). Wt: 3 lbs. (**#4836LA**) Qty. 1-2/**$20.00**, 3 + /**$18.00.**

Mobile Data File™ Cart.

Keep your printout organized and accessible with this handy file cart.

Seven spacious trays handle up to 132 column printout, documents... and more. Dual labels on each tray aid organization. They'll tell you at a glance what's stored or what's missing.

Add more trays as you need them.

Using special clips (included), it takes only seconds to add up to 5 extra trays to the Data File Cart. (Sold separately, see P.12 to order).

Mobile Data File. Seven trays. Preassembled. Includes special clips and casters. (**#2560LA**) **$99.00 ea.**

Paper Taxi...an alternative to an aching back!

Instead of lifting, carrying and straining your back—use the highly efficient Paper Taxi to haul printout, invoices, and forms.

Each 16" square Paper Taxi has been wear-tested to support and move more than 400 pounds of cargo. With four heavy-duty, rolling casters and a chromed steel handle you'll find it makes just about any paper hauling task manageable.

Paper Taxi. 16" square, 3" high blue-and-white. With handle. On wheels 6½ lbs. (**#4881LA**) Qty. 1/**$49.00**, 2-4/**$46.00.**

Paper Taxi with basket. As above, but with line printer basket No. 4882. (**#4880LA**) Qty. 1/**$89.00**, 2-4/**$83.00.**
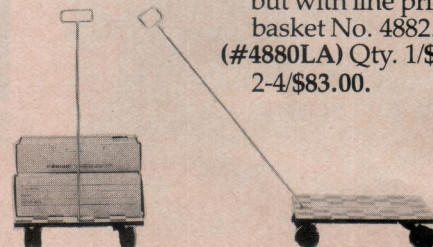

You've invested in a personal computer system to increase productivity. Don't risk the loss of important data because of disorganized filing, improper storage or damaged printout.

The printout handling aids listed on these pages will transform your computer work area into a professional, efficient information access station. Start filing and storing your printout correctly NOW...before it piles up and gets out of control. And, take advantage of our mobile units for quick, easy access to current data.

Bolt-down security for over 2 dozen of the market's most popular printers.

By bolting these stout legs to your valuable printer, you'll be adding an extra dimension of security against theft and accident.

Sturdy, bolt-on stand and basket designed to fit dozens of popular printers.
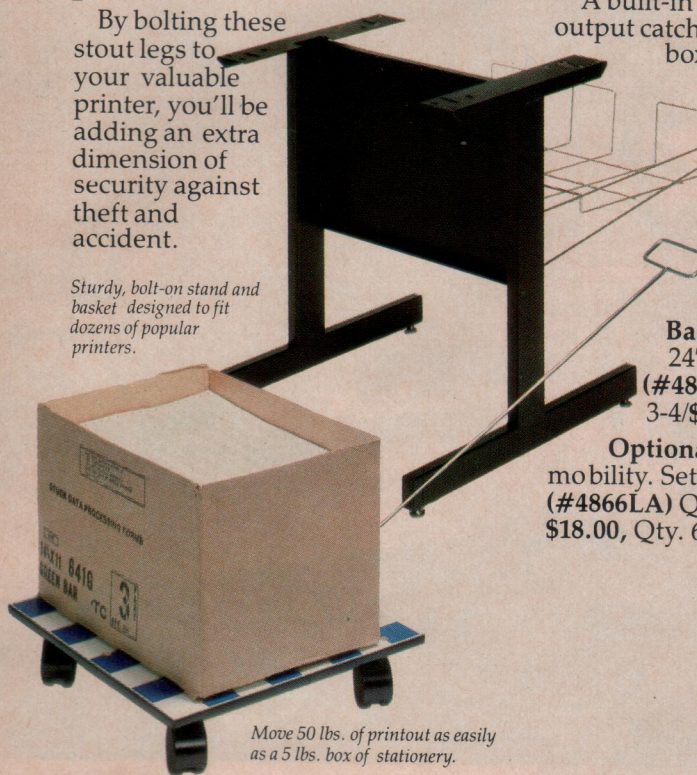

Move 50 lbs. of printout as easily as a 5 lbs. box of stationery.

Printout Basket.

Originally designed as an accessory for our Paper Taxi, this practical basket was quickly pressed into service as a recycling bin, waste bin, and dense printout storage bin.

When used as a line printer catch basket, its V-shaped bottom refolds up to 1½ cartons of paper neatly without wrinkles.

Line printer basket. Free standing, 12½" w. x 17⅘" l. x 18¹/₁₆" h. Chromed steel. Adjusts to 8 different levels. Wt. 7 lbs. (Can be securely mounted to a Paper Taxi.) **(#4882LA)** Qty. 1/**$49.00**, 2-4/**$46.00**.

We've designed this sturdy stand to support the eight popular line printers listed below. The open-leg design insures proper paper feed. **Catches, folds and stacks printout.**

A built-in basket acts as an input/output catch-all that will hold a full box of 132 column paper weighing up to 60 lbs. The heavy-gauge wire won't buckle or bend.

Line Printer Stand and Basket. For DEC LA34; Centronics 700 Series (except 779); Lear Siegler 300; NEC Spinwriter Series; TI 810 and 820; Okidata Slimline Series; Diablo 1600 and 2300 Series; Anidex 9500, 9501.

Line Printer Stand and Basket. Wt. 48 lbs. Dim: 24" h. x 24" w. x 25" d. **(#4865LA)** Qty. 1-2/**$145.00**, 3-4/**$130.00**.

Optional casters add fingertip mobility. Set of 4 (2 locking). Wt. 3 lbs. **(#4866LA)** Qty. 1-2/**$20.00**, Qty. 3-5/**$18.00**, Qty. 6-9/**$17.00**.

Printout Caddy™...a mobile suspended filing system.

Here's a great way to file printout. Begin with a single unit, add casters for mobility, then add modules as your needs expand.

With this drop-in suspension file the binder spines face upward to display label information. You can locate what you need fast.

24" Printout Caddy storage module. Dim: 24" w. x 20¾" d. x 20¾" h. Wt. 25 lbs. **(#2550-1LA)** Chrome trim. Qty. 1/**$149.00**, 2-3/**$139.00**.

(#2550-2LA) Black trim. Qty. 1/**$149.00**, 2-3/**$139.00**.

36" Printout Caddy storage module. Dim: 36" w. x 20¾" d. x 20¾" h. Wt. 30 lbs. **(#2500-1LA)** Chrome trim. Qty. 1/**$169.**, 2-3/**$155.** **(#2500-2LA)** Black trim. Qty. 1/**$169.**, 2-3/**$155.**

Optional ball casters. 4 per set. Wt. 2 lbs. **(#2499LA)** Qty. 1-2/**$27.**, 3-5/**$24.50.**

Binder handles adapt binders without built-in suspension hooks. Required on all binders for "slide-in" filing. Fit binders with 13⅝" to 14⅞" spines. Box of 10. **(#2490LA)** Qty. 1/**$27.**, 2-5/**$25.**, 6-8/**$24.**

Slide-in filing channels. Required for "slide-in" filing. Box of 10. Wt. 3 lbs. **(#2495LA)** Qty. 1/**$36.**, 2-5/**$34.**, 6-8/**$32.**

Hudson, NH (603) 889-4900 • Boston, MA (617) 536-9141 • Norwood, NJ (201) 767-3601 • Washington, D.C. (202) 362-8214 • Atlanta, GA (404) 441-3041

Protect and organize your floppies and cassettes with these proven storage aids.

Desktop storage for up to 50 floppies!

Here's a functional yet attractive storage system that allows you to keep your frequently needed floppies close at hand. Index dividers simplify filing and aid quick retrieval. A rugged acrylic shell insures durable protection for your flexible disks and helps keep them dust-free.

8″ Floppy Desk File. Holds fifty 8″ floppies. Dim: 9⅝″ w. x 10″ d. x 9″ h. Wt. 4½ lbs. Smoke color.
(#2480LA) Qty. 1/**$43.00,** 2-5/ **$39.00,** 6 /**$37.00.**

5¼″ Minifloppy Desk File. Holds fifty 5¼″ minifloppies. Dim: 6⅝″ w. x 8″ d. x 6½″ h. Wt. 2⅜ lbs. Smoke color.
(#2481LA) Qty. 1/**$39.00,** 2-5/ **$36.00,** 6 /**$34.00.**

Fingertip access for 20 floppies.

Flip-binder features clear vinyl windows that protect up to 20 floppies and provide easy visual access to label information.

8″ Flip-binder. Holds 20 8″ diskettes. Black. Dim: 11¾″ w. x 9½″ h. x 2½″ d. Wt. 3½ lbs. Includes 80 index labels.
(#2485LA) $45.00.
Buy 2 & SAVE $12.00: **$39.00.**

5¼″ Flip-binder. Holds 20 5¼″ diskettes. Black. Dim: 6¾″ w. x 9″ h. x 2½″ d. Wt. 2½ lbs. Includes 80 index labels.
(#2486LA) $39.00.
Buy 2 & SAVE $8.00: **$35.00.**
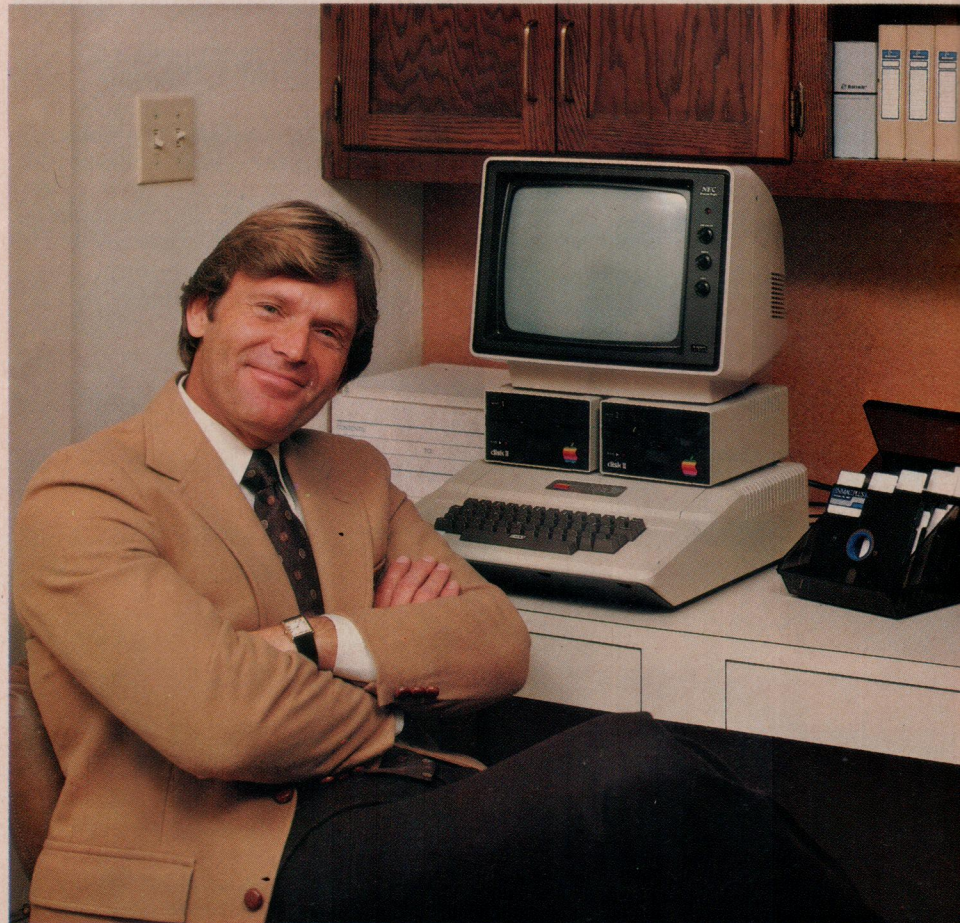

Now it's safe to mail your floppies.

Cardboard Flexible Disk Mailbox. Safely keeps up to 5 disks *flat* during shipment. Interior flaps press firmly to prevent cupping, curling and wrinkling. Inside dim. 8″ x 8″ x 1¼″. Wt. 1 lb. Comes in sets of 10.
(#2604LA) Qty. 1-4 sets/**$14.95,** 5-9/**$13.95,** 10-19/**$13.30.**

Molded Plastic Flexible Disk Mailer. Adjusts for 5¼″ or 8″ disks. Dim: 13¼″ x 13¼″ x 1¼″.
(#2621LA) Wt. 2 lbs. Qty. 1-4/ **$29.00,** 5-9/**$27.00.**

Extra Address Cards for 2621. 100 cards to insert into mailer label holder.
(#2630LA) $4.25/pkg.

Cardboard Mailbox handles up to 5 disks for safe shipment.
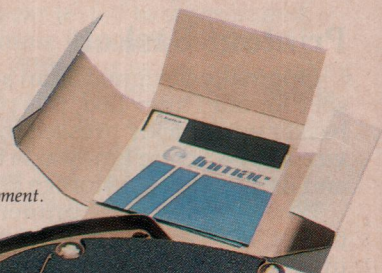

Reusable Plastic Mailer adjusts to hold up to 10 5¼″ or 8″ floppies.

If you've ever wasted precious time searching for a needed tape cartridge or inserted a flexible disk only to find that static electricity has erased half your program...then you know the shortcomings of an inadequate storage system.

In designing our storage aids we've put as much emphasis on organization as safety. Using see-through materials (anti-static, anti-magnetic) and prominent identification labels, we've created a quick access filing system. Binders and file trays allow fingertip retrieval of materials. And, these storage aids are so easy to use...you'll actually be encouraged to keep your floppies and cassettes organized.

No matter what your storage requirement may be...we've probably already developed an inexpensive, but highly effective storage aid to handle it.

Library cases...a compact storage system that converts to a quick access, working display file.

Just because their neat, professional appearance will dress up any bookshelf, doesn't mean these Library Cases aren't functional. They're specially designed to protect disks from cupping and curling ...and they help eliminate harmful condensation and moisture absorption. Now, instead of storing your disks in an ordinary cardboard box, you can use a case that's custom designed for the job.

8" flexible disk library case. Polystyrene. For 10 flexible disks.

9½" h. x 9" w. x 1¾" d. Wt. 17 ozs. Beige.
(#2459LA) Qty. 1-2/**$6.50**, 3-5/**$6.00**, 6-15/**$5.50**.

5¼" minifloppy disk library case. Polystyrene. For 10 minifloppies. 6¾" h. x 6½" w. x 1⁹⁄₁₆" d. Wt. 9 ozs. Beige.
(#2460LA) Qty. 1-2/**$6.50**, 3-5/**$6.00**, 6-15/**$5.50**.

Library Cases work two ways. They provide safe storage for 10 floppies and convert to a table-top work aid.

Now you can store your flexible disks in letter or legal size office file cabinets.

Vinyl storage folders for letter or legal size file cabinets.

Now you can store your infrequently used floppies and mini-floppies in standard office file cabinets. Light, but durable vinyl pockets attached to standard hanger bars organize and protect your disks for low-cost bulk storage.

Legal size flexible disk hanging files. Clear vinyl with index tabs. For 1 disk or 2 minifloppies. 16" w. x 9¾" h. 2½ lbs.
(#4470LA) Qty. 1-2 pkgs./**$30.00**, 3-5/**$28.00**, 6-12/**$27.00**.

Letter size flexible disk hanging files. Clear vinyl with index tabs. For 1 disk or 2 minifloppies. 13" w. x 9¾" h. 2 lbs.
(#4471LA) Qty. 1-2 pkgs./**$26.00**, 3-5/**$24.00**, 6-12/**$23.00**.

En Route™ carries 50 floppies, fits under an airline seat!

Here's the computer world's answer to the briefcase. It's strong, easy to carry, holds fifty 8" or 5¼" disks and fits under an airplane seat.
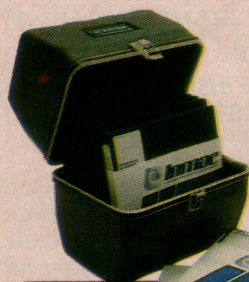

En Route™ holds 50 floppies or mini-floppies.

High-impact plastic and a ribbed outer shell result in an unusually durable case. A special tongue-in-groove interlock closure prevents the penetration of moisture or dust.

Inside, seven sturdy dividers guard against bending by holding your floppies firmly in place. A polyethylene inner lining is specially formulated to cushion your flexible disks.

En Route Floppy Case. Holds fifty 8" or 5¼" flexible disks. Dim. 10" w. x 10" h. x 7½" d. Wt. 2½ lbs. Black.
(#2707LA) Qty. 1-2/**$65.00**, 3-5/**$60.00**.

Stackable mini-rack.

Here's the simple way to organize 16 ¼" data cartridges with or without their own boxes. Its made of handsome chrome finished metal and includes a special label band and can be stacked to increase storage. Use this handy file rack on a shelf, desk or anywhere space is at a premium. Dim: 14½" l. x 3½" w. x 6¼" h. Wt. 8 lbs. Chrome-finish steel.
(#3320LA) Qty. 1-2/**$25.95**, 3-5/**$23.95**.

A rugged, well built case that protects your floppies while traveling. Tongue-in-groove seal keeps moisture and dust out. The En Route case is travel insurance for your floppies.

Our special D ring style binders and unique textured envelopes provide low cost, easy access protection for your flexible disks.

The time-tested 3-ring binder is ideal for disk storage, too!

We've modified the traditional 3-ring notebook with special D shape rings to create flat storage of flexible disks in anti-static envelopes (bunched filing in an ordinary 3-ring binder could cause floppy damage, resulting in data loss). Each binder is designed to accommodate 20 of our special embossed storage envelopes.

Textured surface forms a natural cushion.

Our special storage envelopes feature an embossed surface which forms tiny air pockets. This surface acts as a natural insulator to eliminate static electricity and forms a resilient cushion to help protect each disk.

Fast data identification.

Our storage envelopes feature index cards to assist in quick retrieval of needed data. A spine label on the binder helps you organize your notebooks on the bookshelf.

5¼" flexible disk envelopes & 3-ring binder set. One binder and 10 flexible disk envelopes per set. Dim. 12" h. x 9" w. x 1¾" d. Wt. 2½ lbs.
(#2590LA) $16.00 ea.
Buy 6 & SAVE $6.00: **$15.00 ea.**

Safe, desktop storage for your mini data cartridges.

Here's the handy, efficient way to store up to 24 of your most frequently used mini data cartridges. Handsome and compact, this tray uses little more space than a letter size sheet of paper.

The plastic storage shelves are conveniently slanted to provide the easiest reading angle. Even when the unit is closed, the smoke-tint, see-through top allows easy cartridge identification.

A dust-proof acrylic top is hinged to the base for easy access, and since you never completely remove it, there's no risk of losing or breaking the cover.

Mini Data Cartridge Tray. Dim. 9¾" w. x 8¼" h. x 10" d. **(#2433LA)** Qty. 1-2/**$49.00**, 3-4/**$45.00**, 5-10/**$41.00**.

Organize and protect 32 cassettes with this good looking case.

Thirty two individual, padded compartments cradle your tapes for maximum protection. The see-through dust cover keeps them clean and dry. But, probably the nicest aspect of this storage box is the appearance of it. The smoke-tint cover and walnut-finish base will complement any office decor.

Cassette storage box. Holds 32 tapes. Dim: 18" w. x 10½" d. x 6½" h. Wt. 4.6 lbs. **(#4530LA)** Qty. 1/**$39.00**, 2-3/**$35.00**, 4-9/**$33.00**.

A cassette storage case that's every bit as functional as it is good-looking.

Design your own mini-data cartridge library.

We've combine a special mini-data cartridge storage page with a standard 3-ring binder to create an easy-to-use filing system for your 140' cartridges. It's a simple way to keep your cartridges organized and protected. Six cartridges fit on each page. Dimensions: 8½" w. x 11" h. x 1" d. Wt. 8 oz. 1 white plastic page with each binder.
(#2432LA) $12.00/set.
Buy 3 & SAVE $3.00: **$11.00/set.**

Mini cartridge binder pages.
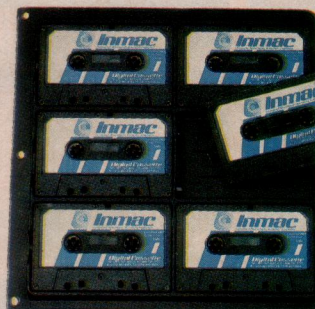

Organize your cassettes for fast, easy access. These pages are designed to fit in any standard 3-ring binder.

Organize 30 cassettes in one binder.

Using these 6-cassette vinyl pages and one standard 3-ring notebook you can create a 30-cassette library. Five pages fit in most binders. It's a great way to organize your cassettes and keep them handy on a nearby shelf or bookcase.

Cassette page. Made of vinyl and 3-hole punched. Dim: 8½" x 11". Black. **(#2447LA)** Qty. 1-5/**$4.25**, 6-11/**$3.75**, 12-49/**$3.50**.

17

Inexpensive ways to protect and maintain the investment you've made.

Dust covers with special additives to reduce static-charge build-up.

Static charges generated by your monitors and printers attract dust like a magnet. This can lead to faulty operation and damaged circuitry. These dust covers are made of a unique clear vinyl containing anti-static additives. They actually dissipate static charges.

Each one of our dust covers is custom fitted to protect a specific piece of equipment. They keep dust out and provide a barrier against unforeseen hazards like spilled food, coffee or cigarette ashes.

North Star...Horizon I, II.

Our flexible vinyl dust covers provide inexpensive protection for your valuable equipment.

Horizon I, II Dust Cover. (7½"h. x 20½"w. x 17⅜"d.) **(#6868LA)** $12.95

Special anti-static additives dissipate dangerous charges that are generated by your monitors or printer. Protection against coffee spills and cigarette ashes.

Special rear cut-outs allow cable routing.

TRS-80 model I, II, and III.

CRT's and printers are dust magnets. Neutralize the static buildup that causes this. **Model I Dust Cover Set.** Keyboard 3"h. x 17"w. x 8½"d. and display 15"h. x 17"w. x 15½"d. **(#6865LA)** $12.95 ea.
Model II Dust Cover. 13¾"h. x 21¼"w. x 23½"d. **(#6866LA)** $12.95ea.

Apple II and disk drive covers.

Anti-static additives in these vinyl covers dissipate dangerous charges before they reach levels that can cause sparks or arcing.
Apple II Dust Cover. 4½"h. x 15¼"w. x 18"d. **(#6861LA)** $12.95 ea.
Apple II Disk Drive Dust Cover. 3¾"h. x 6⅛"w. x 8¾"d. **(#6862LA)** $12.95 ea.

Atari model 800 and 825 dust covers.

Custom designed to provide a snug fit, these covers keep dust out and protect your equipment from spills.
Atari 800 Dust Cover. 4⅜"h. x 16½"w. x 15⅝"d. **(#6863LA)** $12.95 ea.
Atari 825 Dust Cover. 5¼"h. x 14¼"w. x 10"d. **(#6864LA)** $12.95 ea.

Invisible dangers lurk around your micro computer system. Dust and moisture can short out delicate circuits, while a tiny spark of static electricity can wipe out your entire data base.

That's why it makes good sense to spend a few minutes looking at the products on the next few pages.

With these handy preventative maintenance aids, you can ensure the trouble free operation of your equipment... and save tedious trips to the repair shop.

Just use this kit 30 seconds a week and you'll keep the repairman away!

Until now, a dirty drive head usually meant carrying it back to the shop and costly downtime. Where a partial dis-assembling of your unit was previously required to clean floppy drives, now you need only to follow our simple 2 step method and in just 30 seconds you'll be back in business.

"Scrubber" element removes oxide build up & prevents head wear.

A unique "scrubber" element inside our special cleaning disk is designed with wet and dry segments that alternately sweep the head to loosen and remove all traces of contamination. Just saturate the exposed portion of the scrubber with cleaning solution and run it for 30 seconds.

14 month supply in each Clean Cycle Kit.

Our Clean Cycle Kit comes to you complete with everything you need for 60 or more weekly cleaning applications. That's less than a dollar each week to keep your floppy drives clean and operating properly.

Clean Cycle Kit for 8″ flexible disk drives. Single- and dual-sided. Contains 3 cleaning disks, 2 bottles of solution. Wt: 1½ lbs. (#7160LA) Qty. 1/$55.00, 2-4/$51.00.
Clean Cycle Kit for 5¼″ flexible disk drives. Single- and dual-sided. Contains 3 cleaning disks, 1 bottle of solution. Wt: 1 lb. (#7159LA) Qty. 1/$55.00, 2-4/$51.00.
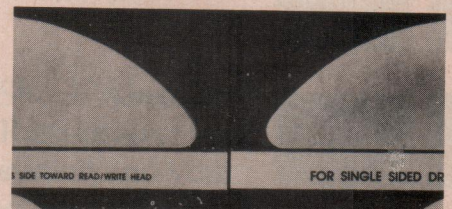

Clean Cycle cleaning disk before cleaning. *Clean Cycle cleaning disk after cleaning.*

Clean Cycle Kit includes everything you need for 60 weekly applications... with three "scrubber" disks and 2 bottles of solution.

The Fortifier™... triples the life of your floppies for 30¢ apiece.

That's right! For just 30¢ per application, The Fortifier not only protects your flexible disks — it can virtually triple their life.

Protects your floppies 3 ways from these common hazards.

Your disk drive is sensitive to several factors which can cause it to slightly or even permanently damage your valuable floppies or minifloppies. These include improper insertion of the disk, erratic movement of the disk inside its jacket, slippage of the disk during rotation... and much, much more.

That's why your disks need the kind of protection only The Fortifier can provide:
1. Prevents your drive's clamping hub from actually tearing the disk's inner hole.
2. Prevents coating removal and dimpling that is likely to occur when your disk hits the rotating drive spindle.
3. Prevents the high cost of data loss resulting from the improper rotation of your flexible disk or your minifloppy.

Foolproof application, positive fit.

Our engineers designed the metal applicator not only for dual use (floppies and minifloppies), but for ease as well. The adhesive rings self-center on the metal applicator, so there's nothing to go wrong.
The Fortifier flexible disk reinforcing kit. With 20 adhesive-back vinyl rings and an applicator. For standard 8″ disks and 5¼″ minifloppies. Wt. ¼ lb. (#7955LA) Qty. 1-2/$27.00, 3-5/$25.00, 6-9/$24.00.
Extra reinforcing rings. Pkg. of 20. (#7950LA) Qty. 1-5 pkg./$5.95, 6-9 pkg./$4.95, 10-20 pkg./$4.50.

*Patent Pending

Precision engineered applicator centers each reinforcing ring perfectly... every time!

Everything you need to clean and protect your micro system...at a 20% SAVINGS.

Our Master Cleaning Kit combines all the major components of our other cleaning kits in one low cost package. It's a $49 value for just $39.

Inside you'll find everything you need to decontaminate tape and floppy drives, remove harmful line printer debris, and keep your monitor screen sparkling clean.

83 separate items fill almost any cleaning need.
• Shugart approved head cleaning disk for floppy drives, good for 20 cleanings.
• Bottle of multipurpose cleaning solution for tape and floppy drives.
• 50 lint-free cleaning wipes.
• 10 dual-ended cleaning wands.
• Bottle of CRT screen cleaning fluid.
• 16 CRT screen wipes.
• Type font brush to remove caked-on ribbon residue, improve print quality.
• 1 bottle of anti-static spray.
• Helpful instruction book.

If you value your equipment, you'll value this kit. Order one today.

Clean Cycle™ Master Kit for systems with 8″ flexible disk drives. (**#7190LA**) **$39.95 ea.**
Clean Cycle™ Master Kit for systems with 5¼″ flexible disk drives. (**#7191LA**) **$39.95 ea.**
For maximum value, buy 2 of either kit and SAVE $6.00: **$36.00 ea.**

Clean Cycle™ Master Cleaning Kit...everything you need for microsystem maintenance.

Anti-static spray
Screen wipes
Cleaning wipes
Floppy head cleaning fluid
Screen cleaning fluid
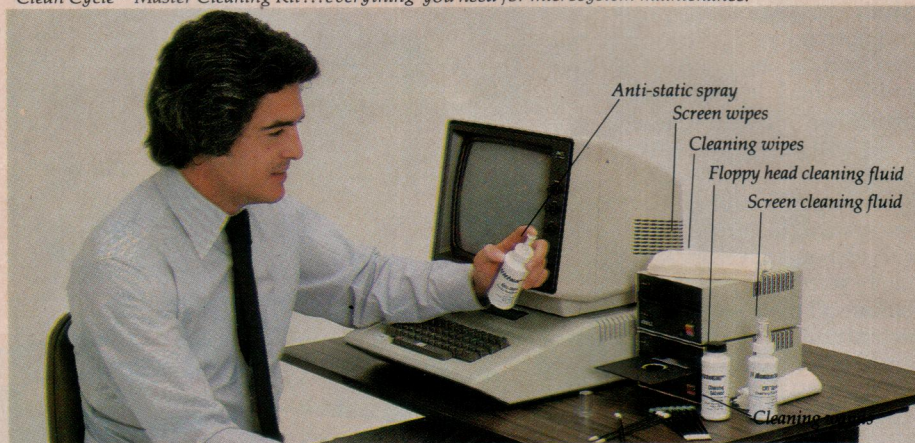

End CRT screen smudges.

Our Clean Cycle™ Screen Cleaning Kit helps you eliminate irritating smudges and fingerprints. These vision impairing contaminants can cause eye strain and serious operator fatigue. Now you can end this problem with a few drops of our no-streak cleaning solution and special lint-free cloths. It's simple, economical and quick.
Clean Cycle Kit for Video Screens. Two 4-oz. bottles of cleaning solution, 50 wipes. (**#7199LA**) **$12.95 ea.** Buy 3 and SAVE $6.00: **$10.95 ea.**

No-streak cleaning solution and lint-free wipes end monitor grime in seconds.

Printer maintenance made easy!

Cleaning a printer has always been a tedious and messy job. That's why we developed this Clean Cycle Kit. It turns this task into a quick, clean 10 minute operation.

Keep your printer running like a charm.
Use this kit to clean your printer's character belt, drum, wheel, ribbon guides, shield, and type font. The cleaning solution works hard to remove grime, paper debris, dust and dirt. It dries quickly and leaves no residue. Cleaning wands are dual-ended and bendable to get at those hard-to-reach places. Use the kit's cleaning wipes for larger, more accessible areas. And, a special font brush can be used to remove the heavy caked-on carbon.

Order your Clean Cycle Kit now and reduce costly printer downtime.
Clean Cycle Kit for Printers. Includes two 4 oz. bottles of cleaning solution, 50 cleaning wipes, 10 wands, 1 type-font brush and 10 pairs of gloves. Wt: 1¼ lbs. (**#6095LA**) **$31.00 ea.** Buy 3 & SAVE $18.00: **$25.00 ea.**

Chart shows that the point of stepping on our Shock Absorber rug or mats (A), it dissipates instantly below shocking potential line.

Shock Absorber Rugs are designed to control static for at least 5 years!

Shock Absorber™ Mats eliminate workstation static!

Static electricity causes terminals to send erroneous data to your CPU and can often permanently damage circuits. That's why we strongly recommend these mats for any carpeted location where people and computer equipment come into contact.

Electro-conductive material and special ground cord protect your equipment.

These unique mats are made of polyethylene, a special electro-conductive material that immediately absorbs static charges. In addition, our mats are equipped with grounding cords to neutralize any residual charge remaining on the mat.

4' x 5' Shock Absorber Mat. Black polyethylene with ground wire. Dimensions: 4'w. x 5'1. x 1/8"t. Wt. 21 lbs. (**#6620LA**) Qty. 1/**$195.00**, 2-4/**$165.00**, 5-9/**$157.00**.

Stand-up Shock Absorber Mat. Black polyethylene with ground wire. Dim. 24"w. x 32"l. x 1/8"t. Wt. 4¼ lbs. (**#6615LA**) Qty. 1/**$57.00**, 2-4/**$52.00**, 5-9/**$49.00**.

3' x 10' Shock Absorber Mat. Black polyethylene with ground wire. Dim: 3'w. x 10'l. x 1/8"t. Wt. 18 lbs. (**#6622LA**) Qty. 1/**$249.00**, 2-4/**$225.00**, 5-9/**$215.00**.

Quick, easy static protection.

Shock Absorber™ Rugs protect your system and your valuable data.

Little more than 2000 volts of electrostatic energy can disrupt your computer system causing altered memory, loss of programs and hours of downtime. Our Shock Absorber Rugs reduce these hazardous static charges below the critical 2000 volt level instantly.

Electro-conductive materials.

Built-up static charges are immediately dissipated into an electro-conductive, non-woven fabric that's concealed under plush nylon pile.

3' x 5' Shock Absorber Rug. Choice of blue, tweed-look gold, brown or green. (13 lbs.) (**#6600LA**) Qty. 1/**$69.00**, 2-4/**$62.00**, 5-9/**$59.00**.

4' x 8' Shock Absorber Rug. Choice of blue, tweed-look gold, brown or green. (27 lbs.) (**#6605LA**) Qty.1/ **$135.00**, 2-4/**$122.00**, 5-9/**$116.00**.

3' x 10' Shock Absorber Rug. Choice of blue, tweed gold, brown, or green. (25 lbs.) (**#6610LA**) Qty. 1/**$139.00**, 2-4/**$125.00**, 5-9/**$119.00**.

Spray static away!

Here's fast, temporary relief from the hazards of static electricity that can zap your circuits and data. For quick protection, use this anti-static spray on your chairs, desks, workstation stands and carpet every 30 days. It's especially helpful in dry or air conditioned environments.

Anti-static spray. Aerosol can. Wt. 15 oz. (**#6625LA**) Qty. 1-3/**$7.95**, 4-9/ **$7.50**, 10-19/**$6.95**.

Hudson, NH (603) 889-4900 • Boston, MA (617) 536-9141 • Norwood, NJ (201) 767-3601 • Washington, D.C. (202) 362-8214 • Atlanta, GA (404) 441-3041

21

New Power Console... a multiple outlet power source with surge protection.

Problems that arise with new personal computer installations frequently involve the power source... or lack of it. Each piece of equipment requires its own power outlet. And all too often, there's only one convenient source of power in the room. That's why we've developed our new Power Console.

Individually switched outlets.

Eight separate power outlets are individually switched for convenient control of all your power requirements. You can selectively activate the power to each piece of computer room equipment at the console. By having all power channeled through this point, you can eliminate the hassle of fumbling with plugging and unplugging electrical cords and your work area will remain orderly. The Power Console features a main on/off switch, fuse and power indicator light.

Multiple surge protection.

Our Power Console is the safe way to connect all your personal computer equipment to an electrical power source. Each power outlet is protected from power surges, electrical noise and radio frequency signals that can disturb the logic in your circuitry or cause memory loss.

A smart investment!

Don't risk equipment damage or software destruction. You've invested a significant amount of money in your personal computer system...and a good deal of time programming. By channeling all your power through our new Power Console you can protect everything. And, you'll have all your connections and switches at one convenient control panel.

(**#6677LA**) Qty. 1-2/**$150**, 3-5/**$138**, 5-6/**$132.**

Why you need surge protectors.

Voltage spikes or power surges are caused by everything from a transformer to flickering fluorescent lights. They can upset the logic in your digital circuitry and destroy your system's semiconductors. The solution? Inmac surge protectors.
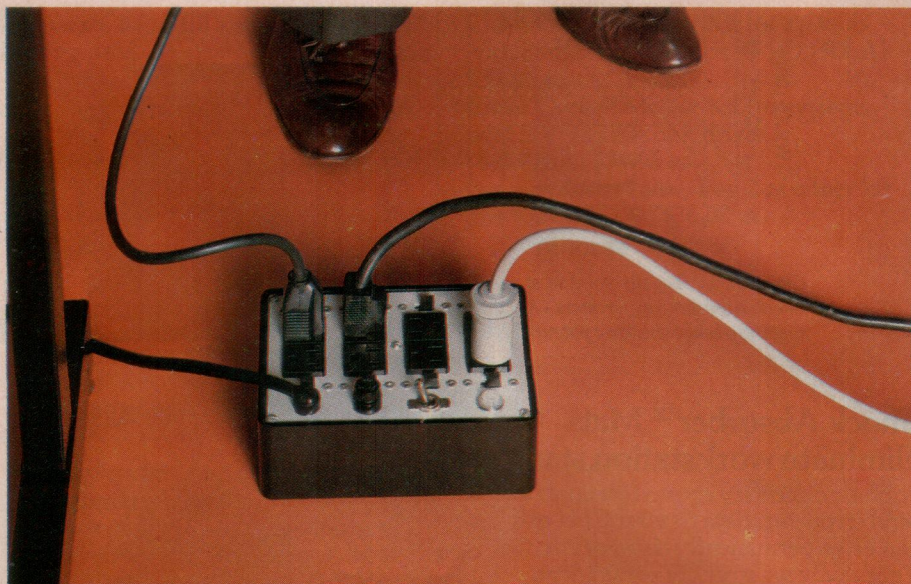

Protect your computer room against data loss and system malfunction with our 2 Stage Surge Protector.

2 Stage Surge Protector.

This device absorbs dangerous line voltages from 195-600V in less than .00001 seconds, with power dissipation up to 5000 amps. Its operating range is −13° to +167°F, in humidity up to 95% non-condensing. Leakage current is under 1 milliamp.

2-Stage Surge Protector. 120 Vac. 60 Hz. (**#6640LA**) Qty. 1-2/**$89.00**, 3-4/**$82.00.**

3 Stage Surge Protector.

Our 3 Stage Protector offers the maximum absorption of voltage surges for solid state systems such as your CPU. It installs in two minutes and gives your circuitry years of protection.

	Stage 1	Stage 2	Stage 3
Clamping level (volts)	200±5%	200±10%	230±15%
Component clamping response (sec.)	5×10^{-12}	5×10^{-7}	1×10^{-6}
100 μsec power dissipation (watts)	1×10^{3}	5×10^{4}	1×10^{6}
Dynamic impedance (ohms)	100	27	10
Rated energy dissipation (joules)	0.1	5	100

3-Stage Surge Protector. 120 Vac. 60 Hz. (**#6642LA**) Qty. 1-2//**$149.00**, 3-4/**$135.00**, 5-6/**$129.00.**

Cable Bridges... protect your employees & wiring.

Exposed cables are susceptible to damage and they can cause accidents. Our Cable Bridges help eliminate these problems and bring your wiring up to OSHA standards.

Easy installation!

Cable Bridges are simple to install in just minutes. Pre-cut slits that

Eliminate the problems of unsightly, unprotected cables.

run along the bottom of each channel allow you to slip cables inside without removing the connectors.

5' lengths can be easily tailored with a sharp knife to meet your exact needs. Cable Bridges are molded in flexible rubber with a ribbed bottom surface that reduces slippage on any type of floor.

Double channel cable bridge. 5 ft. length. Capacity: ¾" x 1" (ea. channel). With one 5-ft. roll of 2-sided adhesive tape for fastening cable bridge to floor. Wt. 9½ lbs. (**#6810LA**) Qty. 1–2/**$49.95**, 3–5/ **$46.50**.

Single channel cable bridge. 5 ft. length. Capacity: ¾" x ½". Includes one 5-ft. roll of 2-sided adhesive tape. Wt. 4 lbs. (**#6800LA**) Qty. 1–2/ **$19.95**, 3–5/**$18.50**.

T-junction. For use with single channel bridge #6800LA. Allows right or left turns or splices two straights. 10 oz. (**#6820LA**) Qty. 1–2/**$7.95**, 3–5/**$7.25**.

Cement. 1 pint can for installing turns, junctions and joints. Wt. 17 oz. (**#6827LA**) **$5.00**.

Code-a-Sentry™ ... pick-proof, jimmie-proof protection for your equipment and records.

Your new personal computer equipment represents a tempting target for thieves and would be costly to replace if stolen. But, consider the expense of replacing your
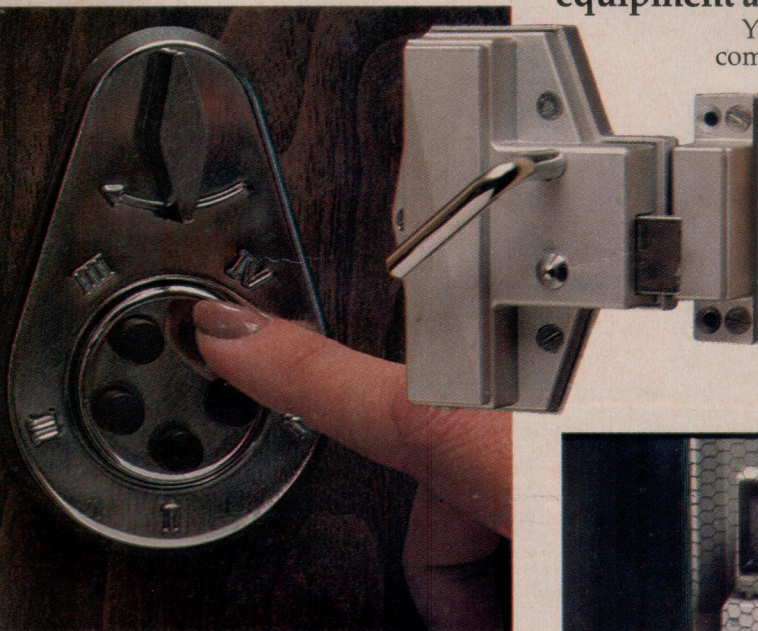

Code-a-Sentry combines the security of a combination lock with the ease of push-button operation. And, you can change the combination yourself in 60 seconds.
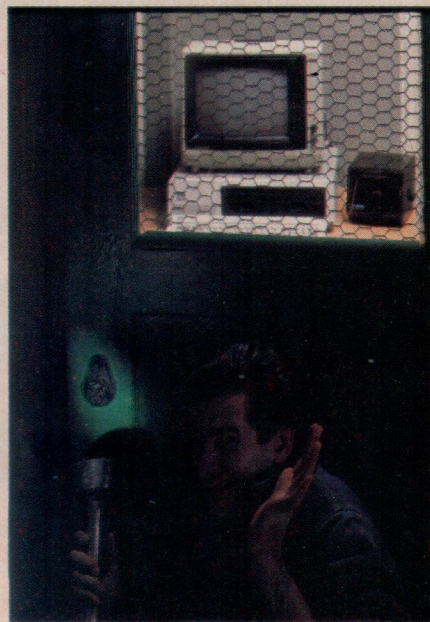

Protect your computer room confidential files from unauthorized individuals.

company records should they fall into the wrong hands.

Don't ignore security needs until disaster strikes. You can't afford to leave confidential information or private mailing lists unprotected. You need Code-a-Sentry from Inmac.

Easy to operate. Change the combination whenever you want.

To gain access to your computer room, simply push your particular combination of numbers and turn the latch. From the opposite side, a convenient lever handle lets you out of a room as easily as you entered... even if your arms are full of printout.

With Code-a-Sentry you control not only who knows the combination for access to a room, but also what the combination actually is. And, in less than a minute you can change the combination. It's ideal for employee turnover, changes in tenants and, there're no lost keys, no expensive visits from the locksmith.

Rated by experts as "pick-proof" and "jimmie-proof".

Experts have rated this lock as "pick-proof" and it meets the U.S. Department of Defense requirements for restricted areas.

A new deadlatching trigger snaps automatically when the door is shut to positively prevent the latch from being "jimmied" by a credit card or screwdriver.

Made from heavy-duty brushed chrome steel, it's been wear-tested for 1.5 million openings (the equivalent of 30 years of intensive daily use).

Code-a-Sentry Lock. Fits 1¾" to 2⅛" doors with either wood or metal jambs. 4" w. x 5" n. Wt. 4 lbs. (**#6550LA**) Qty. 1/**$199.00**, 2–4/ **$180.00**.

Hudson, NH (603) 889-4900 ● Boston, MA (617) 536-9141 ● Norwood, NJ (201) 767-3601 ● Washington, D.C. (202) 362-8214 ● Atlanta, GA (404) 441-3041

23

Quality products that take the worry and wait out of supply shopping.

We act as your supply agent to find, test and inventory the various components that will help you keep your personal computer operating smoothly without interruptions or errors.
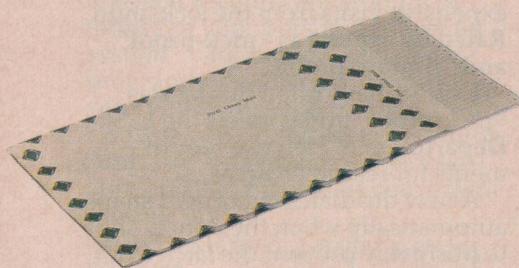

Avoid costly downtime ... keep your supply shelf well stocked with the finest products you can buy.

The simplest things can keep your new personal computer from doing its intended job. A broken print-wheel character can delay an important report. A faulty diskette or cassette can mean hours of reprogramming or worse yet—vital data that's lost forever!

That's why it makes good sense to buy only quality computer supplies from a reliable source like Inmac.

To help you keep your personal computer running at its peak performance level, we've carefully selected and field-tested the products listed on the following 10 pages.

They meet or exceed all ANSI specs and they're guaranteed to be compatible with your equipment.

There's no need to wait weeks or months for your supplies to arrive. The products you order today will be shipped within 24 hours.
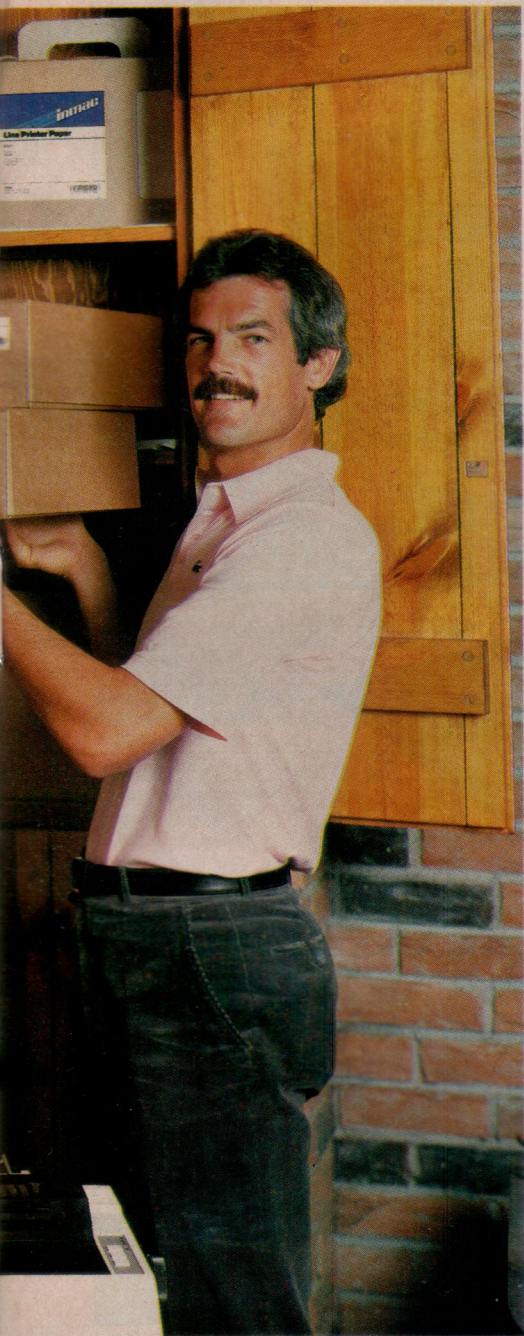

Don't gamble with your programs and data. Use Inmac Plus™ diskettes.
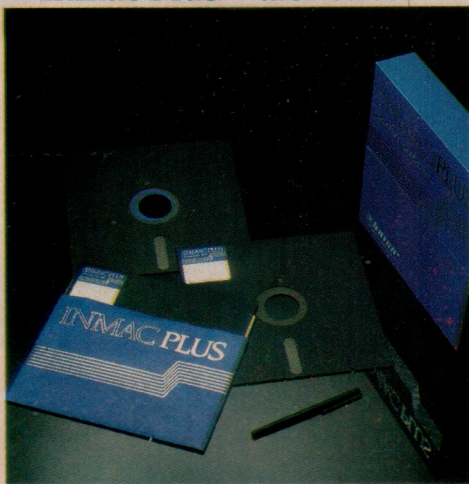

Inmac Plus diskettes are a personal computer user's "dream come true"! They're so technically accurate...so free of defects...so well-engineered ...that they're guaranteed to give you a lifetime of flawless performance.

Does it pay to use the finest diskettes available with your personal computer?

In the few short months since we introduced Inmac Plus, thousands of personal computer users from hobbyists to scientists have said: "Yes!"

They're among the growing number of people who have come to realize that the least expensive diskettes to own are the ones that *always* work.

Has this ever happened to you?

You've just spent a day or so developing your program...and another 3-4 days debugging it. It's almost ready to go, with just a few minor bugs left to find.

You turn on your computer, put your diskette in the drive and...uh oh...the words flash on the screen "Read Error."

You take your diskette out and put it back in again. Still nothing.

You keep trying. But, it's no use. Your diskette's gone bad and it's taken your program with it.

Think of the hours of valuable time wasted.

If you're lucky enough to have some recent printout or good notes, you can probably piece your program back together again. But, it'll take hours of time on the keyboard to do it.

If you're not so lucky, then all you can do is grit your teeth and start from scratch.

Either way it's like burning dollar bills. Hours and hours of your valuable time is down the drain... wasted. And all because of a faulty diskette.

It happens all the time.

If you've had your computer very long at all, you know this is an all-too-familiar story. It's probably already happened to you. Maybe even a number of times.

Many of the "bargain" diskettes on the market today are so prone to malfunction that not only do they poop out after just a short period of time, but as many as 4 out of 10 don't even work the first time out of the box.

A good question to ask yourself is: "Is it cost-effective to save a few bucks up front by using an inferior diskette?"

Inmac Plus...the first and only diskettes good enough to merit a lifetime guarantee.

You never have to worry about losing your data or a program when you put it on an Inmac Plus.

These are the finest diskettes on the market today.

They're produced to such stringent specifications that they're the only diskette available anywhere backed by a lifetime guarantee.

It doesn't matter whether you use an Inmac Plus premium diskette for 5 years or 85 years, we guarantee that they will read and write flawlessly for as long as you own them.

Should an Inmac Plus diskette *ever* fail to read or write, we'll replace it—free of charge.

What makes an Inmac Plus the world's finest premium quality diskette? Turn the page and find out.

Hudson, NH (603) 889-4900 ● Boston, MA (617) 536-9141 ● Norwood, NJ (201) 767-3601 ● Washington, D.C. (202) 362-8214 ● Atlanta, GA (404) 441-3041

25

Why personal computer users who care about their data use Inmac Plus diskettes.

Personal computer users by the thousands turn to Inmac Plus when they want to give their data the best possible protection it can receive. They want to put their data on a diskette and know they'll be able to call it up again when they need it.

Specifically, why are so many computer users switching to Inmac Plus?

1. An Inmac Plus works in your drive the first time, every time.

The first thing you'll notice different about an Inmac Plus is the blue hub ring.

There's no better protection for your diskette against the warps, dents, burrs and tears caused by your drive's clamping hub. These can ruin your diskette, and wipe out your data, by preventing it from registering in your drive.

Inmac Plus diskettes are certified to the industry's highest level: 100% error-free!
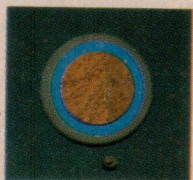

Blue reinforcing hub rings protect against warps, dents, burrs and tears.

It's just the kind of thing that brings those "Won't Read" lines to your screen.

The hub ring also eliminates those aggravating transient errors caused by disk slippage and misalignment.

2. Flake-proof oxide coating gives your data lifetime protection.

Other diskettes have hard coatings that gradually break down and flake under the everyday stress of drive heads and pressure pads. This causes costly read/write errors.

An Inmac Plus is different. Its coating is flexible. It "gives" instead of flakes.

This insures you years of trouble-free performances.

3. Does not wear down like other diskettes. It has a permanently lubricated surface.

Friction from drive heads and pressure pads causes the major wear to a diskette.

Surprisingly, some diskettes contain no lubrication. Others are simply "overcoated," resulting in a surface layer of lubrication that quickly wears off.

An Inmac Plus has a specially cured lubricant that will never wear off!

It's permanently locked into place.

Your computer's drive head glides smoothly over the diskette. Friction is kept to a minimum. Your data is permanently protected.

4. Inmac Plus delivers impeccable read/write accuracy. Other diskettes aren't even close.

Climate changes—like temperature and humidity variations around your computer—cause most diskettes to expand or contract.

This often leads to misread data.

INMAC PLUS
Product No. 9898

0018973

We're watching for quality, so every diskette is numbered and registered.

A "flexible" coating combats oxide flaking and gives a minimum of 10 million wear revolutions/track.

You'll never have to worry about losing your data or programs when you write them on Inmac Plus diskettes.
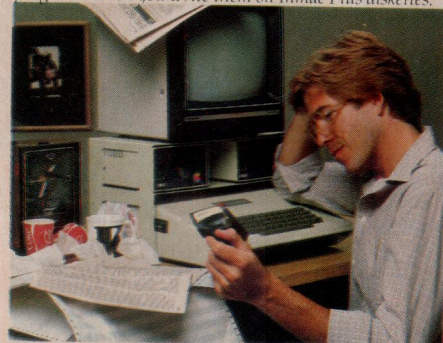

Inmac Plus diskettes undergo a special annealing process. It relieves the molecular stress within the substrate and makes them extremely resistant to these climate changes.

The result? Even when other diskettes fail, Inmac Plus will give you impeccable read/write accuracy.

Order a box of Inmac Plus. Use them for 45 days, risk-free.

The best way for you to experience the absolute performance and the peace of mind that comes with using a truly quality diskette is to order a box and use them in your own drive for 45 days.

If you're not convinced that these are the finest diskettes you have ever used, just return them for a prompt refund.

The Inmac Plus Lifetime Guarantee

Each Inmac Plus flexible disk is guaranteed to read and write to your satisfaction for as long as you own the product.

Should an Inmac Plus flexible disk ever fail to perform to your satisfaction, call us for an immediate replacement. Along with your replacement disk we will provide you with a special mailer in which to return your faulty disk.

Understandably, we cannot guarantee damage resulting from neglect or abuse. Nor do we assume responsibility for any consequential damages.

2800	DS/DD Soft Sector	9865LA	$9.95	$8.95

Floppy "double talk" made perfectly clear.

Single Sided (SS): For single head drives. Data is recorded on one side only. One index hole in jacket.

Dual Sided (DS): For dual head drives. Data is recorded on both sides. One index hole in jacket.

Single Density (SD): Data recorded at 3408 bpi.

Double Density (DD): Data recorded at 6816 bpi.

Critically tested: These disks are tested to higher than normal specifications to ensure greater reliability.

Soft Sector: Disk has one index hole near inside diameter. All sectioning information is recorded in the format.

Hard Sector: Disk has 10 or 16 section holes in addition to the index hole. Hard and soft sector disks are not interchangeable.

Inmac Standard floppies combine low price with 100% error-free performance.

Over the past four years, Inmac Standard diskettes have become the "industry standard" for reliable performance at a reasonable price. **The data you write today will read tomorrow.**

Even the smallest defect in a disk could cause costly data errors. That's why every Inmac Standard disk is thoroughly tested to meet all ANSI specs and even tougher Inmac standards.

In addition to being certified 100% error-free at a 40% clipping level, every disk is wear-tested to run a minimum of 4 million accumulated track revolutions without an error.

Specially formulated low-abrasive oxides extend head life and eliminate the problems of head wear so common on dual-sided drives.

Performance and compatibility that's guaranteed.

We believe the best way for you to discover the quality of our disks is to use them yourself. Every Inmac disk you purchase is guaranteed to read and write 100% error-free for one year. On the remote possibility you discover a defect in one of our disks, return it to us for an immediate replacement.

> **Inmac Standard Flexible Disk One-Year Guarantee.**
>
> *All Inmac flexible disks are guaranteed to read and write 100% error-free for the period of one year from the date of purchase. On the remote possibility you discover a defect in our disk, return it for a prompt replacement.*

After rigorous testing, these flexible disks are certified 100% error-free. And, that's not just a promise... it's a guarantee.

Inmac customers enjoy knowing their cartridges are guaranteed error-free for 1 year.

Mini Data Cartridges.

These 3M Scotch Data Cartridges are certified to have no permanent errors. Rigorous testing insures that what you write today is what you'll read tomorrow...and the day after. These cartridges provide maximum end-to-end tape tension and superior drive force characteristics. In every respect, these mini data cartridges meet or exceed industry standards for one full year.

Available in three sizes:

Certified ¼" Data Cartridge. 300'. High performance, bi-directional. Total storage capacity: 23 million bits. Wt. 8 oz.
(#7259LA) Qty. 1-9/**$24.25**, 10-24/**$22.75**, 25-49/**$21.25.**

Certified Extra-Length ¼" Data Cartridge. 450'. Completely interchangeable with #7259LA. Total storage capacity: 34.5 million bits. Wt. 8 oz.
(#7261LA) Qty. 1-9/**$27.25**, 10-24/**$25.75**, 25-49/**$24.25.**

Certified Mini Data Cartridge. 140'. Highly reliable, bi-directional. Wt. 2 oz.
(#7255LA) Qty. 1-9/**$18.75**, 10-24/**$17.75**, 25-49/**$16.75.**

Mini Data Cartridge 1 Year Guarantee.

All 3M Data Cartridges are guaranteed to be free of permanent errors (errors that persist after three read attempts) for 1 year from the date of purchase. Should you discover a defect, simply return the cartridge to us for a prompt replacement.

3M Flexible Disks.

We recommend only 3 brands of floppies...Inmac Plus (p.27), Inmac Standard (p.28), and 3M. Why do we choose 3M as our consumer brand disk? Simple. It's a name that's been tested in the marketplace and proven to be a high quality product at a reasonable price.

Digital Cassettes that won't let you down!

The last thing you need with your personal computer system is for something simple to break down, like a digital cassette. That's why we test and re-test our cassettes to insure 100% error-free performance.

Thoroughly tested to insure:
- High reliability and improved stability.
- Decreased electrical surface resistance.
- Decreased light transmittance.
- Resistance to heat and humidity.
- Enhanced recording density.
- Improved torsional strength.
- Prevention of skew errors.
- Maintenance of exact pressure.

The result is a digital cassette you can depend on for quality and error-free read and write capability.
(#7231LA) $5.00

100% error-free digital cassettes from Inmac.

Printout paper handling made easy!
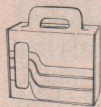

In surveying the needs of personal computer users, we discovered many of you don't consume large quantities of any particular style of printer paper. Yet, because of the wide variety of microcomputer applications we did find the need for a simple, convenient method of keeping several types of printout forms handy.

We've selected the eight most popular forms and made them available in small, convenient-to-use quantities.

We've also packaged them in special, easy-to-carry boxes featuring a sturdy, fold-down lid and handle that closes tight. They're lightweight so you can carry several, and they're compact. They even fit in most desk drawers.

Use Handy Packs as holders to directly feed forms into your printer, or use them as handy storage boxes once your forms are printed.

Use the chart below to determine the style of printer forms you need for the jobs run on your personal computer and order several Handy Packs today.

Line Printer Paper in Handy Packs

Safest way to mail printout.

Why stuff your 80 or 132 column printout into standard envelopes when you can send it flat, unfolded and intact with our special printout mailing envelopes. They're made from a tough material...Tyvek spunbounded olefin. It's virtually indestructible, won't tear or disintegrate in contact with moisture. This is the safe and professional way to mail your valuable printout.

Tyvek printout mailing envelopes: 15" x 12" x 2". Wt. 4 lbs., 6 oz. per set. **(#2660LA)** Qty. 1–3/**$24.95**, 4–9/**$23.25**, 10–19/**$21.95**.

Professional printout binders available in 2 styles, 6 colors, and 5 sizes.

Color coded index tabs for 80 or 132 column printout.

80 or 132 column index tabs.

These Mylar-reinforced, "life-time" tabs are designed to index your bound 80 column or 132 column printout. This seemingly small and inexpensive storage aid can make a major contribution toward increased productivity.

You get 10 sets of 6 sheets. Each set features 6 individual position

Pressure-Sensitive Labels.

Our pin-fed Pressure Sensitive Labels are trouble-free. Here's why: 1. Extra heavy backing and deep perforations make sure these labels stack as neatly coming out of your printer as they went in. 2. They're treated for proper ink absorption to eliminate smearing and smudges. 3. Special adhesives insure they won't peel off or curl. 4. Available in single, double, triple or quad rows.

Order your labels today from the chart on p. 30.

Low cost storage and protection for printout.

These economical binders offer one of the best ways we know of to organize, store and protect printout forms. And, just as important, they represents the professional way to maintain important data.

Our binders load from either top or bottom for quick page changes. All feature slide out suspension hooks for easy drop-filing in our Printout Caddy (p. 13). Easy-to-operate steel posts allow binding of up to 8" of printout.

Inmac ribbons are custom-matched to fit your printer.

To help make supply ordering easier for you we've actually custom-matched our various ribbons to fit your printer. That means we've tested ribbon materials, analyzed inks, and studied various printer formats to develop a line of printer ribbons that covers virtually every application.

"Good Impressions™"... a name that means quality.

We insist on quality workmanship and materials. In addition to being woven with a precise thread count, our fabric ribbons are loosely twisted. This insures better resiliency, maximum ink retention and longer ribbon life. The final result is a clear, sharp, vivid image.

Save money with quantity discounts.

Take advantage of our quantity discounts by calculating how many ribbons you'll use over the next few months. Order as many as you can and save. Every ribbon listed below is available for next day shipment.

Simply identify the ribbons you need in the compatibility chart below.

For Diablo and others. 5/16" x 393'. (#6475)

For NEC Spinwriter. 1/4" x 353'. (#6448)

For DEC's LA 34/38. 1/2" x 11 yds. (#6435)

For Data General Dasher 1 and DEC's LA-30/35/36. 1/2" x 40 yds. (#6100)

For Atari, Centronics & Radio Shack Line Printer II and IV. 9/16" x 45'. (#6440)

tamination. And, by storing your printwheels properly, you'll avoid misplacing or losing them.

Daisy Depot. Holds 6 Qume or Diablo printwheels. Dim: 9¾" w. x 11½" l. x ¾" h. Wt. 1½ lbs. Lt. blue. **(#2465LA)** Qty. 1-2/**$11.95**, 3-5/ **$10.95.**
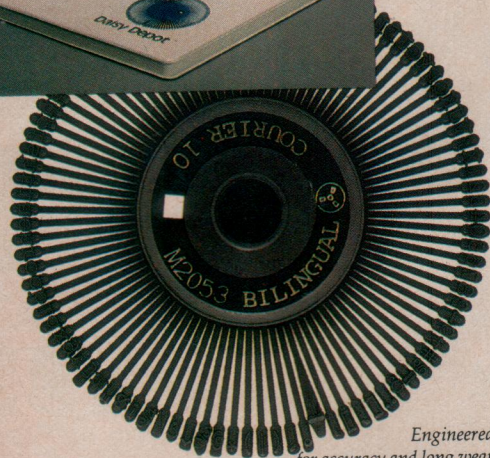

Your Printwheel and Thimble marketplace.

We offer you a wide selection of typestyles for your printer, listed below in descending order according to their popularity. Select several to take advantage of our quantity discount.

Quality you can depend on.

Every printwheel we offer is designed to give proper clearance between the characters. We insist on it because an edge that's too sharp can cause your reports to blur. And, an edge that's too round can lack needed character definition. You can be confident that the characters on every wheel you buy from us are not only accurately shaped, but also well engineered to resist wear and provide added life.

If you don't see what you need, please give us a phone call. We can probably help you.

The practical, secure way to store your NEC Thimbles.

Thimble Binder

This tough, lightweight case holds six thimbles securely in molded-plastic receptacles. It seals closed with velcro fasteners to keep dust and dirt out. Organize your thimbles in this case and you won't misplace or lose them.

Thimble Binder. Holds 6 thimbles. Dim: 7½" w. x 10¼" l. x 1⅜" h. Wt. 1 lb. Black. **(#2510LA)** Qty. 1-2/**$10.95**, 3-5/**$9.95.**

Now... programming can be easier, faster, and more accurate. Here's how!

Keep all your program documentation in one place.
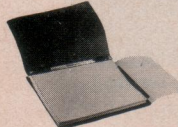

Our Program Documentation Binder helps you organize your source listings, operation procedures, flowcharts, and error codes for quick access when you need it. And, with all your program documentation handy you won't need to rely on the original programmer to answer questions.

A well-designed, long lasting binder.

In this unique binder, we've combined the standard nylon post data binder with a metal prong 8½" x 11" binder. Both are encased in a tough vinyl cover. It's like getting two binders in one. And it's durable enough to take the repetitive punishment of day-in, day-out use.

Programmer's Documentation Binder.

For use with 14⅞" x 11" unburst printout and 8½" x 11" 3-hole punched sheets. Wt. 5.6 lbs./box. Color, black. Sold in boxes of five. Includes labels & tab index. **(#2401LA) $49.00/box.**
Buy 3 and SAVE $12.00, **$45.00/box.**
Buy 5 and SAVE $35.00, **$42.00/box.**

## Data HiLite™ Ruler aids printout readability.

It pays to make computer reports easy to read. That's why it really pays to buy the Inmac Data HiLite Ruler. It's been tested to improve reading speed across a 132-column page, and it also increases operator accuracy while reducing uncomfortable eyestrain.

It highlights one line at a time.

Even with the most complex or sparse printout, our Data HiLite Ruler helps to spotlight one line at a time for on-target accuracy. And, improved accuracy increases productivity.

Order several... your business associates or fellow employees who use and read printout will really appreciate this handy tool.
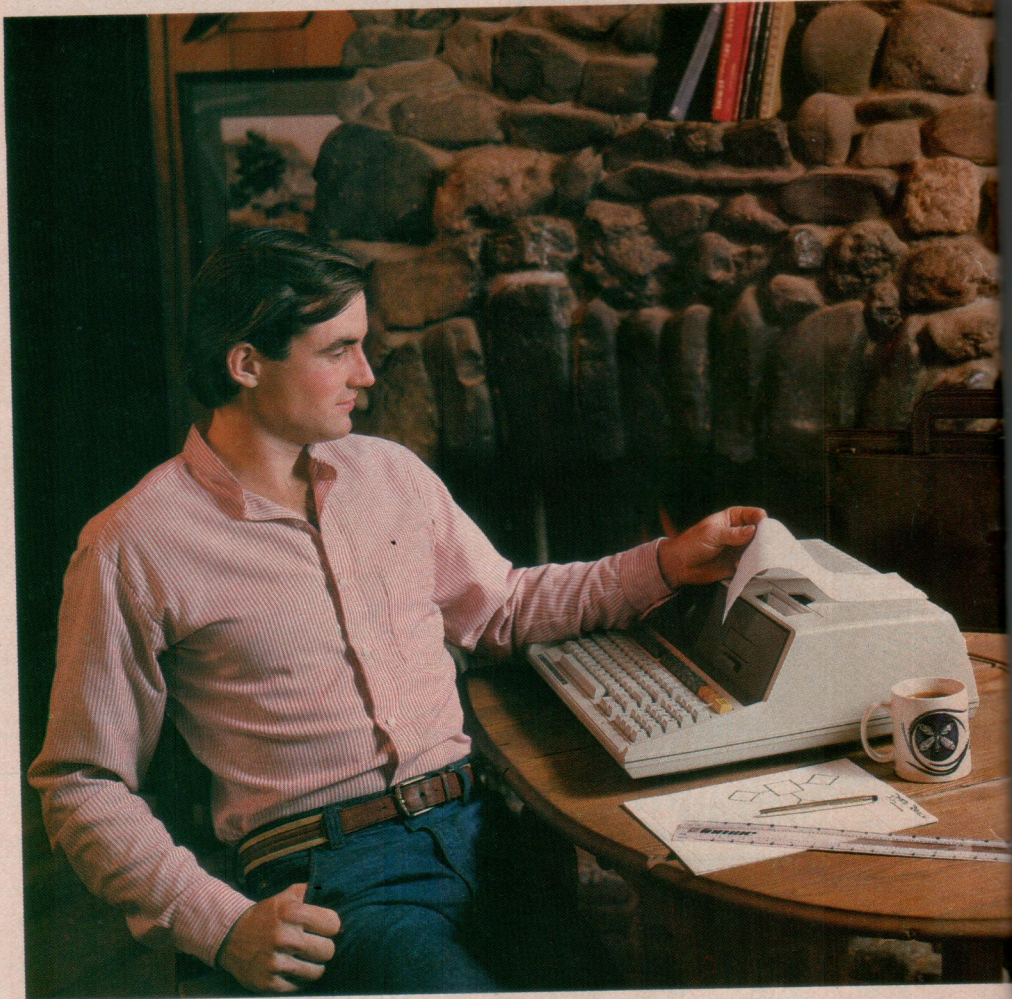

Data HiLite Ruler helps you read easily across 132 columns.

Inmac Data HiLite Ruler. 15" x 1½". Clear plastic, yellow "line window", easy-to-read red lettering. Wt. 1 oz. **(#5955LA)** Qty. 1–4/**$3.25**, 5–9/**$2.75**, 10–24/**$2.50.**

Our Forms Design Ruler does all this and more:

1. Saves you hours of software development design time.
2. No switch ending.
3. Measures lines down page, and characters across page.
4. Punched card volume scale. You can use the quantity index from 1 to 1000.
5. Sprocket-hole location indicated. For standard line printing spacing.
Don't let programming become a tedious, time consuming chore. Now, there's an alternative. We call them programming aids. They're designed to eliminate the common problems programmers often encounter.

The secret to successful programming is thorough planning and documentation. The various aids on these two pages make this easy. Whether it's standardizing your flowcharts or organizing your source listings in an accessible binder…these inexpensive aids can really have a positive impact on your programming effectiveness, and make program revisions a snap.

Select the items you feel can help you the most. If they're not everything we say…simply return them for a full refund. We're betting you'll be so favorably impressed that you'll not only keep them, but come back for more.

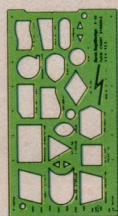

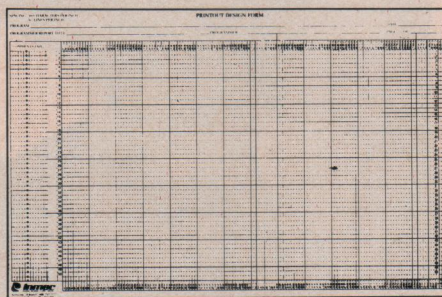

Printout Design Form, to plan and review projects prior to programming.

Now, before you even begin programming you can establish a written record of each project, review it and get it approved.
- Ideal for 72-col., 80 col., or 132 col., reports.
- Spacing is set up for standard line printers…six lines/inch vertically, 10 characters/inch horizontally.
- All columns and lines numbered for convenient position location.
- Holds a full sheet of 14⅞″ x 11″ information.
- Both dividing line and blue/white pattern at each 10 character mark give you easy location.

Printout Design Form. 11″ h. x 16″ w. 50 sheets/pad. Wt. 10 lbs. 10 pads/pkg. **(#5920LA) $34.00 pkg.** Buy 2 or more and pay ½ price: **$17.00/pkg.**

Flowchart Form helps identify obvious logic errors before programming.

Because our flowchart gives you a neat, legible form of final documentation, it is reviewed more seriously before you spend weeks writing code. Its formalized structure lets you spot design improvements early.

Your design flowchart can serve as a part of your permanent program documentation, eliminating the drudgery of redocumenting.

Flowchart form. 11″ w. x 16″ l. Space for 44 operations. 50 sheets/pad. 10 pads/pkg. **(#5910LA) $33.00 pkg.** Buy 2 or more and pay ½ price: **$16.50/pkg.**

6. Snap-apart forms standard depth indicators indexed from 5½″ to 14¾″.

7. Continuous forms standard width indicators, 4¾″ to 17²⁵/₃₂″, high dots on a 1″ scale.

Inmac Forms Design Ruler. All-steel with measurements engraved. Instruction sheet. Dim: 18″ l. x 1¼″ w. x ¹/₁₆″ d. Wt. ½ lb. **(#5950LA)** Qty. 1–2/**$8.95,** 3–5/**$7.95,** 6–11/**$7.50.**

Inmac's "Forms Design Ruler" is the secret to more useful computer reports. It'll save you literally hours of software design time.

Programmer's Template.

Programmer's Template

During development, this template can be a real lifesaver. It imposes a formalized structure, reduces logic errors, and makes it easy to identify design improvements. Template-drawn notes can often be used as final documentation. Dim: 8″ x 4½″. Has all ANSI flowchart symbols. Durable green colored plastic. **(#4505LA)** Qty. 1–4/**$9.00 ea.,** 5–9/**$8.00 ea.**

## Basic Coding Form helps you save valuable time!

By standardizing your software format you'll save precious time. This form is designed to help you accomplish just that. It includes statement number, statement field and comment field. It is compatible with 72 column width teleprinters, monitors, and punched cards; and 80 column printers. Dim: 8½″ x 11″. 50 3-hole punched sheets/pad. Wt. 6 lbs./pkg. **(#5975LA)** 10 pads/pkg. **$29.00 pkg.** Buy 2 or more and pay ½ price: **$14.50/pkg.**

Hudson, NH (603) 889-4900 • Boston, MA (617) 536-9141 • Norwood, NJ (201) 767-3601 • Washington, D.C. (202) 362-8214 • Atlanta, GA (404) 441-3041

# Expand your system's capabilities as your operation diversifies.

T-Switch for full-time access to all equipment.

Here's what you can do with a flick of your wrist:

- Connect any of up to 6 peripherals to a single input/output port.
- Access a modem from any of several micros.
- Use a single printer to support several personal computers.

Rugged rotary switch has silver alloy plated contacts, 'valox' 420 wafers and 10,000-operation life expectancy. Contact resistance: .015 ohms max. Current capacity: 5.3 amps.
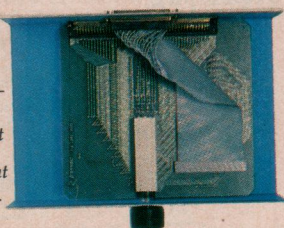

Connectors are soldered directly to board or ribbon cable for greater reliability.
Rigid PC board construction cuts crosstalk and line interference.

You can also piggy-back several T-Switches to build a switching network that's flexible enough to handle almost any application.

2-Device T-Switch for 9-line and 15-line RS232 cables. Controls 2 devices. Has 3 connectors. Switches lines 2-8, 12, 14-17, 20, 22 and 24. **(#373-2LA)** Qty. 1/**$170**, 2-4/**$155**, 5-8/**$145**.

2-Device T-Switch for 25-line RS232 cables. Controls 2 devices. Has 3 connectors. Switches lines 2-25. **(#372-2LA)** Qty. 1/**$185**, 2-4/**$170**, 5-8/**$160**.

4-Device T-Switch for 25-line RS232 cables. Controls 4 devices. Has 5 connectors. Switches lines 2-25. **(#372-4LA)** Qty. 1/**$215**, 2-4/**$200**, 5-8/**$190**.

6-Device T-Switch for 25-line RS232 cables. Controls 6 devices. Has 7 connectors. Switches lines 2-25. **(#372-6LA)** Qty. 1/**$245**, 2-4/**$230**, 5-8/**$220**.

As a serious personal computer user, you'll eventually reach a point (if you haven't already) where your system's capabilities must be extended. Either your business has grown and diversified or you've simply mastered your computer's present capability, and want more. That's why we offer the various products you see on pages 36-43.

Each item is designed to enhance and expand the capacity of your current system. You'll be surprised at the number of new tasks you can accomplish. In fact, you'll probably wonder how you ever got along without some of these aids.

Before you start looking into duplicate (and redundant) equipment, a more powerful processor, or a to-tally new system...we encourage you to look into these carefully selected enhancement tools. You'll probably save both time and money. Best of all, you'll measurably improve a system that's compatible with your operation.

"Direct connect" your computer equipment with this high-performance modem!

This full-featured, direct-connect modem gives you super-clear data transmission even in noisy office or home environments

Loaded with convenience features.

It's designed for full-duplex, asynchronous operation at 0-300 baud and remains in answer mode until a carrier is detected (which automatically switches it to originate mode).

A front panel push button lets you switch between normal voice and data communications.

Our new direct-connect modem lets you communicate over long distances with other computers and terminals.

A self-diagnostic system is built-in.

**5-minute installation with your existing equipment.**

A connecting cable (p.42-43) and phone with a modular RJ-11 jack are all you need for fast, easy setup.

It's compatible with 300-baud acoustic couplers and type 103 modems and registered by the FCC and DOC.

Order now and be on-line in just days.

Clear Signal 300-Baud Direct-Connect Modem. Includes operating instructions and power cord with adapter. Dim: 11¾"d. x 2⅜"h. x 7¼"w. Wt: 1 lb., 12 oz. Full duplex operation. Has a male EIA RS232 25-pin connector. (#8060LA)Qty. 1/$199.00, 2-3/$179.10, 4-6/$164.77.

Plugs right into your existing phone line using the standard RJ-11 modular phone jack.

What you should know about data communications.

The devices on this page are modems (modulator demodulators). They're required when exchanging data over telephone lines with distant computers and terminals. They convert digital data into analog data for transmission over your phone — and they reverse the process when receiving.

The acoustic coupler is compatible with all telephones. It's low-cost and highly portable. To use it, just dial your phone, place the handset into the sealing cups, flip a switch, and you're sending or receiving data.

The direct-connect modem is designed for phones with the modular RJ-11 jack. It operates in noisier environments than an acoustic coupler and works by simply depressing a switch.

How to order the right cable.

It's really quite simple. Just turn to our cable section and look for the modem cables listed on the pages for your computer manufacturer.

Acoustic Coupler simplifies data communication.

The Inmac Clear Signal™ acoustic coupler provides an easy, cost effective way of accessing various network services like airline schedules, stock market quotations, commodity reports, UPI news, and hundreds of other listings. It also enables you to exchange programs. In short, it transforms your telephone line into a data transmission system and lets you communicate with any similarly equipped system.

Triple-sealing cups lock the handset into the acoustic chambers to eliminate background noise.

Installs in five minutes.

With the proper connecting cable (p.42-43), you simply make two plug-in connections and you're ready to transmit or receive data. This unit can operate in both full and half duplex modes, allowing verification of signal transmission. It also has an added "self-test" feature. Unlike most acoustic couplers, Inmac's has a sensitivity of −50dBm, exceeding

the −47dBm standard. It's also Bell 103 compatible, interfaces with most EIA RS232C computers and terminals at 300 baud (bits per second).

Clear Signal 300-Baud Acoustic Coupler. Includes operating instructions and power cord with AC adapter. Dim: 10¾" d. x 2⅛" h. x 4½" w. Wt. 1 lb., 12 oz. (#8000LA) $169.00.

Operates in half or full duplex modes. Self-testing feature speeds troubleshooting.

A switch lets you select, originate or receive modes.

Features 4 indicator lights. It is shown here in the self-test mode.

Hudson, NH (603) 889-4900 • Boston, MA (617) 536-9141 • Norwood, NJ (201) 767-3601 • Washington, D.C. (202) 362-8214 • Atlanta, GA (404) 441-3041

Sanyo Display Monitors ... the near-perfect video unit for your personal computer.

We're pleased to offer Data Display Monitors from Sanyo in three sizes to help meet your specific needs. These field-proven monitors are widely accepted for quality and reliability.

Ideal for home or personal business computer systems.

Our Sanyo Monitors are plug-in compatible with a wide range of personal computer systems such as Apple, Atari, Radio Shack, Ohio Scientific, Exidy and others. Exterior cases are made of easy-care, vinyl-clad steel. Controls are up front for easy access and feature a protective cover. The crisp, high definition display is among the finest we've seen.

Choose from three Sanyo monitors:

- **Compact 9″ (White on Black)**— ideally suited for use with personal or small business computer systems...affordably priced.
- **Professional 12″ (Green on Black)**—the perfect complement to small business and scientific

computer systems where continuous monitoring of data may be required.

- **Data Display 13″ (Full Color)**— the ideal choice for use with today's new generation of color capable computer systems.

6′ Phono Plug cable from monitors. **(#729-2LA) $9.00.**

PL 259 Adapter. Phono Plug to UHF. For No. 8200-H. **(#739LA) $4.75.**

Order today. And use a Sanyo monitor for 45 days, RISK-FREE.

The best way for you to discover the high performance of a Sanyo monitor is to try one in your own environment at your own relaxed pace.

If you're not 100% convinced that a Sanyo monitor is the best for your needs, just return it within 45 days and we'll refund your money.
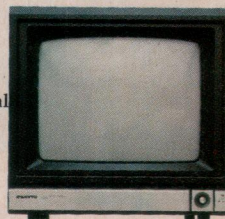

Adapter used to allow connection between a phono plug and a Video Screen UHF-type socket.**(#739LA) $4.75.**

Centronics 739...a professional quality printer.

The 739 is a versatile, high-quality printer at a reasonable price. It offers correspondence printing for text and data processing, plus pin addressable graphics suitable for small business systems.

Characters are proportionally spaced with true descenders and true underline and software control of right margin justification and top of form setting.

The Centronics 739 accepts 8½" x 11" cut sheet, 9" pin to pin fanfold and up to 8½" wide roll paper.

Check out these standard features:
- 100 CPS—Monospaced Mode
- 80 CPS—Proportional Spaced Mode
- Proportional Spacing, Plus 10 CPI and 16.7 CPI
- Nx9 (Proportional) or 7x8 (Monospaced) Dot Matrix
- Pin Addressable Graphics—Resolution 74 Dots/In. x 72 Dots/In.
- 3 Way Paper Handling System
- Paper Out Switch
- TOF (66 Lines or 72 Lines)
- Self-Test
- 96 Character ASCII
- Expanded Print
- Right Margin Justification
- Print Underlining
- 9 Wire Free Flight Printhead
- Bi-Directional Paper Movement
- Full One Line Buffer
- 6 Lines Per Inch Vertical Spacing
- Average Noise Level Less Than 60 dbA
- Microprocessor Electronics

Centronics 739 Printer, Parallel. 14½" w. x 11" d. x 5" h. Wt. 12 lbs. **(#8100LA) $695.**
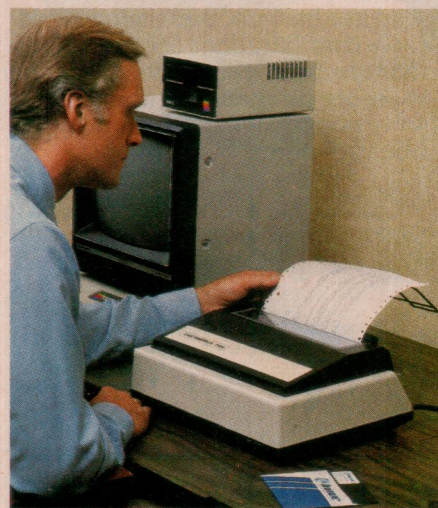

Professional quality printing at an economical price. Ideal for small business systems.

Centronics 739 Printer, Serial. Features 2K page buffer to accept fast full screen dump from video terminal. **(#8103LA) $725.**

Interface Centronics and Apple II. Here's how!

Use this Interface card (shown above) to interconnect any high-speed Centronics-type parallel printer with the Apple II computer. It provides an eight-bit parallel data output bus, four bit status input, data strobe, and acknowledge handshake signals. A printer reset signal insures compatibility with various printers.

Insert the Interface card into any Apple II peripheral slot 1-7. It supports the interrupt daisy chain with arbitration logic. This includes jumper-selectable IRQ generation and provides DMA daisy chain pass-through. **(#8110LA) $124.**

Cable: Connects Centronics 737/739 to CCS 7728 Interface card. 15 feet. **(#704-1LA) $39.**

Hudson, NH (603) 889-4900 • Boston, MA (617) 536-9141 • Norwood, NJ (201) 767-3601 • Washington, D.C. (202) 362-8214 • Atlanta, GA (404) 441-3041

39

It's easy to order cables connecting your micro to anything! We've even shown you how...

Whether you order 1 or 100 cables, a respect for the vanishing art of craftsmanship will make you appreciate the proven results of one of our cables.

"Standard" at Inmac is a cable that is built with copper conductors to prevent data dropouts caused by oxidation of the connection. Our cables are U.L. listed and tested for strength and deformation. We also insist on using specialized equipment that test our Clear Signal cables for point-to-point continuity. And as a backup, the catalog-listed cable configurations are run against manufacturer's equivalent wire lists to assure compatibility and to help solve your installation problems before they occur.

"Ordering a custom cable could have been a nightmare. Thankfully, I called Inmac."

Some people say diversity, not necessity, is the mother of invention. And with more installations being used for expanding or various operations, we are constantly helping customers increase the capacity of their original micro via custom cables. Many requests come from manufacturers themselves.

Over the years, Inmac has gained the respect of the leaders in the field...in fact, we sell a surprising amount of cable directly to DEC, DGC, HP and TI, and Apple. **"At today's prices, anything that is guaranteed is worth a long hard look."**

To show you how much faith we have in our cables, we're willing to stick our necks out on a guarantee that's the strongest we know of.

The Inmac cable—1-Year Extended Guarantee

All Inmac standard cables are guaranteed to be free from defects in material and workmanship, and to perform in accordance with our catalog specifications, for 1 year.

If, within the first 45 days, you're not completely satisfied, return the cable for a full refund, credit or replacement. After 45 days, we guarantee replacement only.
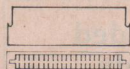

We cannot assume any systems integration responsibility, contingent liability, nor consequential damages. Our liability is limited to the purchase price of the cable.

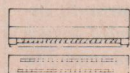

Connectors (used on our cables)

"Inmac's catalog is so easy to use, even my boss could order an EIA-RS 232 Cable."

We created a revolution in ordering ease. All you need to know is function. For additional reference, we've included a manufacturer's equivalent part number. Determine the length and you've got it.

Standard Inmac assemblies are available for most popular micro-computer configurations, including the basic EIA-RS 232.

At Inmac, we don't put a price on technical expertise. We pride ourselves on offering our professional support personnel and precise engineering.

A last word on what's in a name...
We've given our cables the name Clear Signal for a good reason. They've been designed and built with materials that help prevent data loss and crosstalk.

As you know, a cable is more than just conductors and a jacket. It's an essential link to your computer system. In fact, your entire system relies on its ability to transmit clean, clear signals. At Inmac, we're not only proud to have each one of our cables bear the name "Clear Signal"... to us, it's a credo.

Find out today how Inmac can help solve your cable problems.

Seven tinned copper strands in each conductor gives you a good solder joint and prevents oxidation.

Drain wire is in constant contact with shield to insure 100% grounding.

Each wire is color-coded for fast identification.

Inside mylar aluminum shield protects from signal interference.

Super-tough blue PVC insulation rated to 80°C, 300 volts.

Get to the heart of any interface problem.

Our new Inmac RS-232 I/O Tester is a pocket-sized, self-contained test set that can be connected between data communication equipment (DCE) and data terminal equipment (DTE) to monitor, troubleshoot and correct signals in the interface.
Easy-to-read indicators.

Twelve LEDs monitor the following signals: TD (2), RD (3), RTS (4), CTS (5), DSR (6), DCD (8), TC (15), RC (17), DTR (20), SQ (21), RI (22), and Busy (25).

To insure that power drain from the RS-232 interface is minimized, our tester (unlike many others) gets its supplementary power from two 1.5 watt penlight batteries. This supplementary power can be switched off at any time.

RS-232 I/O Tester. Rugged plastic case. Batteries included. Dim: 5.5" l. x 2.9" w. x 1.4" h. Wt. 10 oz.
(#369-1LA) Qty. 1/**$199.**, 2-4/**$185.**, 5-9/**$175.**

Connection jumpers for cross-patching interface pins.

DB 25 female connector to DTE.

EIA to CCITT chart.

DB 25 male connector to DCE.

DTE and DCE interface connection pins located both sides of dual-in-line switches.

24 switches let you interrupt any of the I/O signals.

Save on costly field service calls.

Many computer hardware field service calls are for minor jobs most users could handle themselves... and at prices that usually start at $100 and can easily go up to $1000. Our new Data Processing Tool Kit provides you with everything you're likely to need when performing simple maintenance on small systems, printers, terminals and other small electrical equipment. Our kit can also save you expense and time by keeping your system up and running.
Quality tools organized for convenience.

Our kit consists of a wide assortment of selected high-quality tools and supplies organized in one light-weight, zippered vinyl carrying case. It's a quick, inexpensive way to equip yourself for doing your own troubleshooting or light repair work.

You can start saving time and money on your service needs by calling us today.

Data Processing Tool Kit. Contains 34 different tools. Case of zippered vinyl. Inside dim: 11½" x 10" x 1½". Wt. 7 lbs.
(#6672LA) Qty. 1/**$225**, 2-3/**$205.**

Avoid the expense of many minor service calls by using these professional tools to do simple jobs you can handle yourself.

Description of Data Processing Tool Kit

Cable ties, 7½"	Electrical tape
Soldering iron, 25 watt	Heat shrink tubing
Solder, pocket-pak	6" adjustable wrench
Needle nose pliers, 6¾"	Wire stripper
Wire wrap tool	Small diagonal
Screwdriver, slotted, ¼x4	cutters
Screwdriver, slotted, ³⁄₁₆x3	Solder wick
Screwdriver, Phillips, #1x3	Backplane jumper
Screwdriver, Phillips, #2x4	Wire wrap wire, 50'
Hex key set	Oiler
Socket wrench set	Fuse puller
X-Acto knife	Rule, 6"

Extend your data lines with an EIA RS 232 cable.

As you already know, most personal computers arrive with no more than a 10-foot cable. What happens if you want to move that noisy printer into the storage room next door, or hook up an acoustic coupler to the phone across the room?
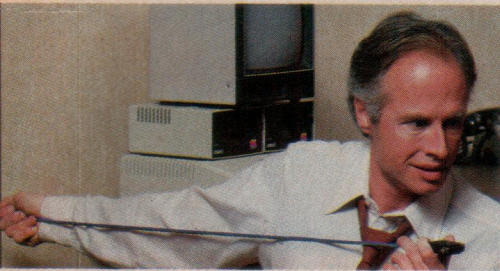

It's simple. Order one of our pre-configured cables listed below to extend your current cable. It's as easy as moving a lamp with an extension cord.

Industry calls it "standard".

In recent years, more and more manufacturers have adopted the EIA RS 232 interface as standard.

This 25-line EIA RS 232 cable will extend lines (or pins) 1 through 25. Choose the configuration required for your connector and, when your cable arrives simply connect them as shown in the diagram at right.

Custom orders.

Most typical applications require the standard lengths we offer below. However, if you need a greater length, we can custom-build EIA RS 232 cables up to 200 feet long!

To order a custom length, simply call your nearest Inmac branch for price and delivery information.

Male to Female	M to M	F to F	Length	Price ea.
310-1-**LA**	310-2-**LA**	310-3-**LA**	10 ft.	$40.00
325-1-**LA**	325-2-**LA**	325-3-**LA**	25 ft.	$53.00
350-1-**LA**	350-2-**LA**	350-3-**LA**	50 ft.	$70.00
355-1-**LA**	355-2-**LA**	355-3-**LA**	100 ft.	$98.00

Extend your own cable in 5 minutes.

Follow the three simple steps listed below. You'll find that moving your CRT's and terminals can be just as easy as moving a lamp with a household extension cord.
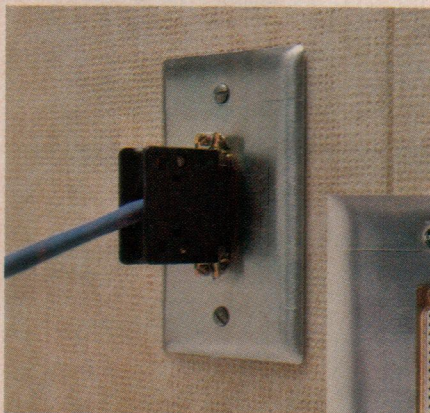

1. Disconnect your current EIA connector.

2. Connect the mating Inmac EIA cable in the length you require.

*3. Connect the other end of the Inmac EIA cable to your terminal. And, you're done!*

This attractive wall plate is compatible with all EIA connectors.

Use this handsome wall plate to dress up your installation.

These attractive wall plates are brushed stainless steel. They accommodate any standard EIA connector—no matter what the pin configuration.

Mounting is simple. All you need is a screwdriver.

Wall plate. Includes mounting screws. (**#390LA**) $5.
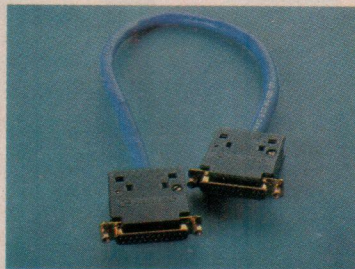

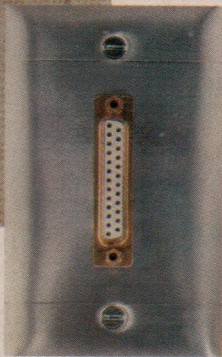

Our gender changers really come in handy when re-configuring your terminals or modems.

Connector & wall plate. With #851 EIA female connector, set of #853 female mounting screws. Preassembled. (**#391LA**) $12.00.

Connector & wall plate. With #856 EIA male connector, set of #853 female mounting screws. Preassembled. (**#392LA**) $10.

Cables won't mate? Use a gender-changer.

With this handy product, it's easy to hook two cables together...even though the genders conflict. Just plug in our gender changer to complete your connection. Order several, so you'll have them handy when re-configuring terminals or modems. Two RS232C connectors, all 25 pins connected, mounted on a 12" cable does the job.

Gender Changer for connecting two male EIA cables. Gender Changer has two female connectors. (**#330LA**) $35.00.

Gender Changer for connecting two female EIA cables. (Gender Changer has two male connectors). (**#331LA**) $35.

Hudson, NH (603) 889-4900 • Boston, MA (617) 536-9141 • Norwood, NJ (201) 767-3601 • Washington, D.C. (202) 362-8214 • Atlanta, GA (404) 441-3041

From our best sellers list... books for novices and pros.

Introduction to Pascal (including UCSD Pascal)
by Rodnay Zaks

A complete guide to Pascal, the high level computer language everyone wants to learn. Step-by-step instructions and progressive exercises enable beginners to quickly learn to program in Standard and UCSD Pascals. Complex concepts presented at the end of each chapter challenge experienced programmers. For all audiences: beginner through expert. 440 pp.
**(#2824LA) $14.95.**

The Pascal handbook
by Jacques Tiberghien

A comprehensive dictionary of Pascal containing all the features of most existing versions of Pascal. This easy to read, easy to use handbook includes a definition, description, diagram, implementation, variations and examples for each entry. Over 80 entries are arranged alphabetically, making this the perfect reference tool for any Pascal user. 340 pp.
(#2825LA) $18.95.

The Business System Buyer's Guide
by Adam Osborne

This book provides solid information on how to determine your needs, how to choose software and hardware for all business applications, what to expect from vendors, what to avoid, and what questions you must ask. It also provides a wealth of detailed information on products, manufacturers, retailers, and the whole microcomputer marketplace.

Before you buy any computer, read this book. You'll never make a better investment. **(#2821LA) $7.95.**

An Introduction to Micro-computers—Volume 0: The Beginner's Book
### by Adam Osborne

Here's the book to start with if you know nothing about microcomputers but wish to learn about them.

With the help of numerous illustrations and a wonderfully lighthearted text, Volume 0 will help give you a sound understanding of the basics of microcomputing. You'll learn about the microcomputer's construction, terminology, internal logic, and application. **(#2822LA) $7.95.**

An Introduction to Microcomputers Volume 1—Basic Concepts Second Edition
by Adam Osborne

Using concepts that are common to all microprocessor systems, **Volume 1** develops a detailed picture of what a microcomputer can do, how it does what it does, and how the capabilities of microcomputers can best be applied.
**(#2823LA) $12.99.**
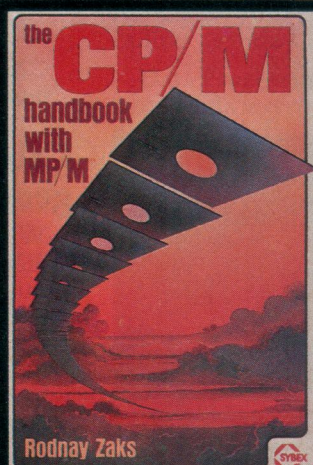

The CP/M handbook with MP/M
by Rodnay Zaks

Step-by-step instructions to the computer operating system that has become the industry standard on small computers. Everything from turning on the computer and inserting a diskette to problem solving is included in this complete guide and referenced manual for CP/M® (Control Program for Microprocessors). All audience levels: first time users, input typists, business users, experienced programmers. 336 pp.
**(#2828LA) $14.95.**
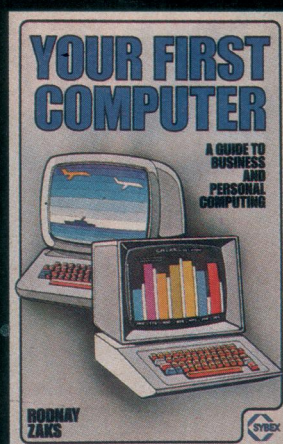

Your first computer
by Rodnay Zaks

Recommended by Business Week, this popular guide to small computers includes a special section on selecting the right computer for every need. Clear, simple explanations of what a computer system is and how to use one make this an important book for those new to computing. 280 pp.
(#2827LA) $8.95.

Programming the 6502
by Rodnay Zaks

A basic "how-to" book for the 6502 (the chip used in Apple and Pet computers). Covers all aspects of programming the 6502 microprocessor from basic concepts through program development. Progressive exercises test the reader at each step. Highly recommended by well known trade publications, this is an essential book for anyone—beginner through expert interested in programming a 6502-based computer. 392 pp.
(#2826LA) $13.95.
